b/ Number of farms not additive across sign-up types because farms may participate in multiple sign-up types.

CONSERVATION RESERVE PROGRAM

ENROLLMENT ACTIVITY AND NEWS – September 2012

- September ended with enrollment at 29.5 million acres, down 0.1 from October 2011, as attrition (dropout—mostly from general signup) exceeded new FY 2012 contracts added through continuous signup. There are 293,003 acres of FY 2013 contract continuous signup on deck.
- The general signup (#43) held March 12 through April 13, resulted in 3.88 million acres determined acceptable out of 4.54 million acres offered. As of September 30, contracts covering 3.4 million acres have been loaded into the system.
- FY 2012 continuous signup (#42) added 143,234 acres in September and now totals 413,785 acres, including 293,003 acres of land under FY 2013 contracts. These contracts were not in effect on September 30, and are not included in the 29.5 million acres currently enrolled.
- A continuous signup initiative was announced in February that will target enrollment of 750,000 acres of cropland with erodibility index rating of 20 or more. Signup began July 23, and 29,532 acres have been recorded so far.
- Another continuous signup initiative, announced in March, added 1,000,000 acres to be allocated among various wildlife and wetland initiatives, including 400,000 additional acres of State Acres for Wildlife Enhancement (SAFE) and a new 100,000-acre pollinator habitat initiative.

General Signup. Producers with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates and select wildlife-enhancing vegetative covers to increase EBI ranking.

Continuous (Non-CREP) Sign-up. Producers with eligible lands may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetlands at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives. Lands enrolled under various initiatives are included in this category.

Conservation Reserve Enhancement Program (CREP). Under CREP agreements, Federal/State partnerships, implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided. Currently, there are 45 agreements in 33 States.

Farmable Wetland Program (FWP). Producers enroll small non-flood plain wetlands, and new practices added by the 2008 Farm Bill, under modified continuous sign-up provisions.

The accompanying tables are based on contract data developed and maintained in CRP data files by USDA Service Centers through the **end of September 2012**, and are based on the physical location of the CRP contracted land. Some adjustments have been made to correct miscoded data in the active contract files.
