U.S. DEPARTMENT OF AGRICULTURE

Foreign Holdings of U.S. Agricultural Land

Through December 31, 2020

Foreign Holdings of U.S. Agricultural Land through December 31, 2020, by the Farm Service Agency and the Farm Production and Conservation Business Center, U.S. Department of Agriculture.

Abstract

Foreign persons held an interest in nearly 37.6 million acres of U.S. agricultural land as of December 31, 2020. This is 2.9 percent of all privately held agricultural land and 1.7 percent of all land in the United States. These and other findings are based on an analysis of reports submitted in compliance with the Agricultural Foreign Investment Disclosure Act of 1978.

Summary

Foreign investors held an interest in nearly 37.6 million acres of U.S. agricultural land (forest land and farm land) as of December 31, 2020. This is an increase of over 2.4 million acres from the December 31, 2019 report and represents 2.9 percent of all privately held agricultural land in the United States. These and other findings are based on information submitted to the U.S. Department of Agriculture in compliance with the Agricultural Foreign Investment Disclosure Act of 1978. Forest land accounted for 46 percent of all reported foreign-held acreage, cropland for 29 percent, pasture and other agricultural land for 23 percent, and non-agricultural land for 2 percent. Foreign holdings of U.S. agricultural land increased modestly from 2009 through 2015, increasing an average of 0.8 million per year. Since 2015, foreign holdings have increased an average of nearly 2.2 million acres annually, ranging from 0.8 million acres to 3.3 million acres per year.

Foreign Holdings of U.S. Agricultural Land Through December 31, 2020

Tricia Barnes, Mary Estep, Veronica Gray, Cassandra Goings-Colwell, Catherine Feather, and Phil Sronce*

Introduction

Foreign individuals and entities reported holding an interest in nearly 37.6 million acres of U.S. agricultural land as of December 31, 2020.** This is 2.9 percent of all privately held U.S. agricultural land and 1.7 percent of all land in the United States (see fig. 1 for State-level detail).

Summary of the Act and Regulations

The Agricultural Foreign Investment Disclosure Act of 1978 (AFIDA),¹ as implemented by the regulations,² requires all foreign persons holding agricultural land as of February 1, 1979, to file a report of such holdings with the Secretary of Agriculture by August 1, 1979. All foreign persons who acquire or transfer an interest in agricultural land thereafter are required to report such transactions within 90 days of the date of acquisition or transfer. In addition, any foreign person who holds land that subsequently becomes or ceases to be agricultural land, or any person who holds agricultural land and subsequently becomes or ceases to be a foreign person, must also file a report within 90 days of such change.

AFIDA specifies in detail the information to be supplied by the foreign person and provides that necessary additional information may be obtained by the Secretary. The information required to be reported consists of the legal name and address of the foreign person; citizenship, if an individual; if not an individual or a government, nature of the legal entity, including the entity's country of creation and principal place of business; type of interest; legal description; acreage; land use; purchase price or any other consideration given; intended use; where applicable, information about the representative of the foreign person; how the interest in the land was transferred; the relationship of the owner to the operator; type of rental agreement, if any; and the date the interest in the land was transferred. In the case of a disposition, the party disposing of the interest is also required to give the legal name and address of the purchaser. Any change in the legal name or address of the foreign person and other entities disclosed on the report form must also be reported within 90 days of such changes. Failure to comply with the AFIDA will subject the foreign person and/or other entities disclosed on the report to a civil penalty of up to 25 percent of the fair market value of the interest held in the land in question.

In accordance with Section 7 of the AFIDA, completed report forms are available for public inspection in Washington, DC, within 10 days of receipt by the Secretary. Section 6 of the Act requires that every 6 months the Secretary transmit to each State copies of completed report forms for foreign-held interests in agricultural land in that State.

Definitions

For this report, the term "holdings" applies to all U.S. agricultural land interests held by foreign investors as of December 31, 2020. This term is used as the title for a subsequent section, which analyzes the reported data.

“Agricultural land” as defined in the Act includes all land in the United States used for forestry production. Land used for forestry production means land exceeding 10 acres in size in which 10 percent is stocked by trees of any size including land that formerly had such tree cover and will be naturally or artificially regenerated. The regulations further define agricultural land as all land used for farming, ranching, or timber production if the tracts are more than 10 acres in size in the aggregate. Land which is currently idle, but last used within the past 5 years for farming, ranching, or timber production, must be reported. Tracts totaling 10 acres or less in the aggregate, and which produce annual gross receipts in excess of \$1,000 from the sale of farm, ranch, forestry or timber products, must also be reported.

AFIDA requires reporting "any interest" in the land other than a security interest (a mortgage or other debt-securing instrument). The regulations exempt leaseholds of less than 10 years' duration, contingent future interests, non-contingent future interests that do not become possessory upon termination of the present estate, non-agricultural easements and rights-of-way, and interests solely in mineral rights.

A "foreign person," as defined in the Act, includes any individual who: (1) is not a citizen or national of the United States, (2) is not a citizen of the Northern Mariana Islands or the Trust Territory of the Pacific Islands, or (3) is not lawfully admitted into the United States for permanent residence. Foreign governments, entities which are created under the laws of, or have their principal place of business in a foreign country, and U.S. entities in which there is a significant foreign interest or substantial control are also defined as foreign persons under the Act. Any person who has been issued the Department of Homeland Security, U.S. Citizenship and Immigration Services “Alien Registration Receipt Card” (green card) is considered lawfully admitted for permanent residence and is exempt from the requirements of the Act.

Individuals are defined as one person or a husband and wife. The "partnership" category includes all legally defined partnerships, joint ventures, and tenancies in common that include two or more persons who are not married. The term partnership does not differentiate between joint tenancies and tenancies in common. In the interest of simplicity and brevity, fine legal distinctions, however important in an individual case, are ignored.

Each foreign entity holding an interest in U.S. agricultural land is required to file a report. Therefore, if two individuals hold an interest in land as a partnership, the partnership is to file one report as a partnership, with the partners' names, addresses, and citizenship listed on the FSA-153 form. Occasionally, however, two people file as individuals, each filing a separate report on the same land with a partial interest of, for example, 49 percent listed on each form. Because it is not always possible to distinguish separate reports for the same land, two such individuals cannot be differentiated from one partnership. This may occur when there is no legal partnership, but individuals hold an interest in the land as tenants in common. If they file together on one form, they are automatically considered a partnership. If they file separately, they are generally considered individuals. Therefore, the data on the number of reported parcels should be used with caution, although there is no double-counting of acres.

The Act is designed to impute foreign person status to certain U.S. entities holding direct and indirect interests in U.S. agricultural land. For purposes of the Act, this is accomplished by defining each successive link in a chain of U.S. entities containing foreign interests as a foreign person.

However, only the foreign person who actually holds the direct (title) interest in the land (that is, the first layer or tier) is considered the reporting entity. This entity need not actually be foreign, but under the Act, is deemed a foreign person because another foreign person holds a significant interest or substantial control in the title owner. In some instances, the second tier also may not actually be foreign, but may be deemed foreign under the Act for the same reason. The regulations define "significant interest or substantial control" to mean a 10-percent or more interest in the entity if held by a single foreign person or a group of foreign persons acting in concert, or a 50-percent or more interest if held by a group of foreign persons not acting in concert, none of whom individually holds a 10-percent or greater interest in that entity. Under the regulations, the reporting entity (other than an individual or government), whether domestic or foreign, is required to provide information (names, addresses, citizenship, and the nature of the entity, if any) on the second-tier investments; that is, all foreign persons holding a significant interest or substantial control in the reporting entity must report. In turn, a second-tier entity may be required to provide information about foreign persons who hold a significant interest or substantial control in that entity.

When the foreign person is an individual from, or an entity created under the laws of, for example, Germany, the report is processed as "Germany." Where persons from many different countries hold direct and indirect interests in one piece of land, an attempt is made to identify the predominant country as the country of origin. When there is no predominant country, for example, an equal partnership between a Canadian and a German, the report is processed as a multiple foreign owner with no predominant country.

The AFIDA procedures provide for land to be reported by parcels. All land held by the same entity, in the same manner (type of interest), located in one county, and acquired at the same time, is considered a parcel and is to be reported on a single form. Land does not have to be adjacent to be considered part of one parcel. This parcel concept is intended to ease the reporting burden.

All parcels (and acres) for each land holder have been combined under said land holder. Therefore, the number of land holders is less than the number of parcels. However, because land holders do not always report their names in exactly the same way on each form, it is difficult to precisely associate these forms with one person or legal entity. Some foreign persons hold land in their own names and also hold interests in entities that hold other lands. These entities are treated as separate land holders.

The AFIDA reporting requirements allow foreign persons 90 days to report their transactions to the U.S. Department of Agriculture (USDA), but not all transactions occurring in the 90 days preceding the closing date of the report are reported to USDA by that date. In some situations, reports are filed late and/or may be incomplete. This means that in some cases, the 2020 data, and also prior years' data, may be understated and should be regarded as preliminary.

Analysis of Data Reported Under the Act

Holdings

Data in this section are derived from the reports filed by foreign persons who held an interest in U.S. agricultural and non-agricultural land as of December 31, 2020. To simplify the discussion, the data as of December 31, 2020, hereafter are referred to simply as '2020'. Foreign-held U.S. agricultural acres as of December 31, 2019 were 35.2 million. Foreign-held U.S. agricultural acres as of December 31, 2020 were nearly 37.6 million, resulting in an increase of approximately 2.4 million acres (report 1A).

Concentration of Foreign Holdings of U.S. Agricultural Land

Foreign persons have reported acreage holdings in all 50 States and Puerto Rico³ (figs. 1 and 2). Except for Maine (described below), only a small percentage of privately held agricultural land in the other 49 States is held by foreign investors (report 1). Maine acreage aside, foreign investment in U.S. agricultural land is concentrated in the South and West.

The state of Texas has the largest amount of foreign-held U.S. agricultural land with over 4.7 million acres (report 1). Maine has the second largest amount of foreign-held agricultural acres, with just over 3.5 million. Alabama has the third largest amount of foreign-held agricultural land with 1.8 million acres.

In terms of percentages, approximately 19.5 percent of Maine's privately held agricultural land is held by foreign investors; this is approximately 9 percent of the reported foreign-held agricultural land in the United States (report 1). Hawaii has the second largest percentage of foreign-held U.S. agricultural land, which is 9.2 percent of the privately held agricultural land in the state, and less than 1 percent of the reported foreign-held agricultural land in the United States. The majority of foreign-held agricultural land in Hawaii consists of pasture land while the bulk of Maine's foreign held agriculture land is forest land (report 1C). Washington (7.1%), Alabama (6.2%), Florida (5.8%), Louisiana (5.8%), and Michigan (5.7%) have the next largest percentages of reported foreign-held agricultural land within each of those states.

States showing the largest increases in foreign-held agricultural acres in 2020 were Oklahoma, with an increase of nearly 383,600 acres; Texas with an increase of a little over 287,000 acres; and Colorado, with an increase of over 286,000 acres (report 1A). Thirty-nine percent of the overall increase in acreage between 2019 and 2020 is attributed to these three states. These increases mostly reflect large purchases of cropland. New Hampshire and Oregon are the only states showing a decrease in foreign-held agricultural acres; the 51,162-acre decline reflects long-term leaseholds which were terminated and the sale of various types of agricultural land. Note that some of the changes reflect reconciliation of past transactions and recording of late filings.

The data reflected in Report 1 and Report 1A pertain to foreign land holdings of agricultural land and do not include holdings of non-agricultural land. There are about 730,000 reported acres of foreign-held non-agricultural land. The remaining reports in this publication (reports 1B, 1C and reports 2-9) include the non-agricultural land category.

County concentrations of foreign holdings of agricultural and non-agricultural land within the continental United States are shown in Figure 3.

Country of Origin

Canadian investors own the largest amount of reported foreign-held agricultural and non-agricultural land, with 32 percent, or 12.4 million acres (report 1B). Foreign persons from an additional four countries, the Netherlands with 13 percent, Italy with 7 percent, the United Kingdom with 6 percent, and Germany with 5 percent, and the collectively held 12 million acres or 31 percent of the foreign-held acres in the United States. The remaining 13.9 million acres, or 36 percent, of all reported foreign-held agricultural and non-agricultural land, are held by various other countries. For example, China held 352,140 acres, which is slightly less than 1 percent of foreign-held acres.

³ Some states regulate foreign ownership of agricultural land, which may appear inconsistent with AFIDA reported acreage. Note that certain state regulations apply to both long term leases and land purchases, while in other states the restrictions apply only to land purchases. The timing of when state laws were enacted, issues associated with ownership tiers, and other factors may also explain differences.

Land Use

Forty-six percent of the reported foreign interest holdings of U.S. land are timber or forest, with cropland accounting for 29 percent of the total acres (report 1C). Foreign-held pasture and other agricultural land total 23 percent of all foreign interest holdings in the United States.

The non-agricultural land category, which includes homesteads and roads, accounts for approximately 2 percent of the reported foreign-held acres in the United States. Land use figures should be used with caution because they reflect only information received at the time of processing and do not account for changes in land use that may have occurred subsequently.

County concentrations of foreign holdings of cropland, pasture land, and forest land within the continental United States are shown in Figures 4 through 6.

Trends

Foreign holdings of U.S. agricultural land increased modestly from 2009 through 2015, increasing an average of 0.8 million per year. Since 2015, foreign holdings have increased an average of nearly 2.2 million acres, ranging from 0.8 million acres to 3.3 million acres per year.

The most significant acreage increases between 2010 and 2020 were in forest land, cropland, and pasture (fig. 7). During this time period, forest land increased from roughly 13.5 million to 17.8 million acres, cropland increased from roughly 4.1 million to 10.9 million acres, and pasture land increased from approximately 5.5 million acres to nearly 7.2 million acres. The changes in pasture and cropland are mostly due to foreign-owned wind companies signing, as well as terminating, long-term leases on a large number of acres; however, the acres actually utilized by said companies are very few due to the small footprint of the wind towers erected on the land.
