<sup>1</sup> Includes all outstanding direct loans (FO, OL, and EM).

<sup>2</sup> Revised from 2014 and 2015 reports. Revisions occur in subsequent tables as well.

<sup>3</sup> Exclusive of waivers and exemptions for beginning farmers.

<sup>4</sup> Groups are not mutually exclusive. A beginning farmer may also be a racial-ethnic minority, woman, or veteran.

<sup>5</sup> Qualified beginning farmer (defined as 10 or less years of farming experience) at time of last direct OL obligation.

<sup>6</sup> Not all direct borrowers may be eligible voters resulting in the number of eligible voters being less than the number of borrowers. A legal entity may be a borrower, but only the individual members would be listed as eligible County Committee (COC) voters. "SCIMS" is the Service Center Information Management System database that contains information on producers.
