ABSTRACT

Foreigners owned 12.5 million acres of U.S. agricultural land as of December 31, 1988. This is slightly less than 1 percent of all privately held agricultural land and 0.5 percent of all land in the United States. These and other findings are based on an analysis of reports submitted in compliance with the Agricultural Foreign Investment Disclosure Act of 1978.

Keywords: Agricultural land, foreign landownership, landholdings, land acquisitions, land dispositions.

PREFACE

This report is made pursuant to section 5 of the Agricultural Foreign Investment Disclosure Act of 1978, which, among other things, requires the Secretary of Agriculture to prepare an analysis of foreign ownership of U.S. agricultural land. The act requires an annual report to the President and the Congress on a calendar-year basis. This report covers information received through December 31, 1988.

SUMMARY

Foreign persons reported that they owned 12.5 million acres, or slightly less than 1 percent, of privately owned U.S. agricultural land (farmland and forest land) as of December 31, 1988. This figure is 99,100 acres larger than the figure at the end of 1987. These and other findings are based on an analysis of reports submitted to the U.S. Department of Agriculture under the Agricultural Foreign Investment Disclosure Act of 1978.

Information received at the time of reporting shows that forest land accounts for 48 percent of all foreign-owned acreage, cropland for 17 percent, pasture and other agricultural land for 30 percent, and nonagricultural land for 5 percent.

Corporations own 80 percent of the holdings acreage; partnerships, 11 percent; and individuals, 7 percent. The remaining 2 percent is held by estates, trusts, associations, institutions, and others.

U.S. corporations in which foreign persons have a significant interest or substantial control reported owning 60 percent of all the foreign-held acreage. The remaining 40 percent was reported as being held or acquired by foreign persons not affiliated with a U.S. corporation.

A number of parcels are owned only in part by foreign investors; that is, the foreign interest in some parcels is less than 100 percent, with the remaining percentage being owned, for example, by a U.S. partnership. When the 12.5 million acres are adjusted for these partial interests, the total foreign-owned acreage drops to an equivalent of 11.6 million acres.

Foreign persons from the United Kingdom, Canada, France, West Germany, the Netherlands Antilles, the Netherlands, and Switzerland account for 74 percent of the foreign-held acreage. Foreign persons from Japan own only 2 percent of the foreign-owned acres.

The largest number of acres owned by foreign persons was reported in Maine. Foreign holdings in Maine account for 10 percent of Maine's privately owned agricultural land. These holdings represent 14 percent of all the reported foreign-owned agricultural land nationwide. Three companies own 91 percent of the foreign-held acres in Maine, all in forest land. Two companies are Canadian and the third is a U.S. corporation which is partially French owned.

Except for Maine, foreign holdings are concentrated in the South and West with 36 and 35 percent, respectively, of the holdings. Rhode Island is the only State with no reported foreign-owned agricultural land.

Foreigners do not appear to be taking purchased agricultural land out of production. No change in intended use at the time of filing was reported for 93 percent of the acreage. No change in tenure was reported for 41 percent of the acres, while some change was reported for 27 percent of the acres. No responses regarding tenure change were received for the remaining 32 percent of the acres.

Data gathering and analysis cost the U.S. Department of Agriculture approximately \$376,000 for 1988.

Foreign Ownership of U.S. Agricultural Land Through December 31, 1988

J. Peter DeBraal*

A Report to the President and the Congress
Under the Agricultural Foreign Investment Disclosure Act of 1978

INTRODUCTION

Foreign individuals and entities reported owning 12.5 million acres of U.S. agricultural land as of December 31, 1988. This is slightly less than 1 percent of all privately owned U.S. agricultural land and approximately 0.5 percent of all land in the United States.

Summary of the Act and Regulations

The Agricultural Foreign Investment Disclosure Act of 1978 (AFIDA), 1/ as implemented by the regulations, 2/ requires all foreign persons holding agricultural land as of February 1, 1979, to file a report of such holdings with the Secretary of Agriculture by August 1, 1979. All foreign persons who acquire or dispose of agricultural land on or after February 2, 1979, are required to report such transactions within 90 days of the transfer. In addition, any foreign person who holds land that subsequently becomes or ceases to be agricultural land or any person who holds agricultural land who subsequently becomes or ceases to be a foreign person must also file a report within 90 days of such change.

AFIDA specifies in detail the information to be supplied by the foreign person and provides that necessary additional information may be obtained by the Secretary. The information required to be reported consists of the legal name and address of the foreign person; citizenship, if an individual; if not an individual or a government, nature of the legal entity, including the entity's country of creation and principal place of business; type of interest; legal description; acreage; purchase price or any other consideration given; intended use; where applicable, information about the representative of the foreign person; how the interest in the land was transferred; the relationship of the foreign owner to the operator; type of rental agreement, if any; and the date the interest in the land was transferred. In the case of a disposition, the party disposing of the interest is also required to give the legal name and address of the purchaser; citizenship, if the purchaser is an individual; and if the purchaser is not an individual or government, the nature of the entity, country of creation, and principal place of business. Any change in the legal

*General Attorney, Resources and Technology Division, Economic Research Service. Gertrude Butler and Joyce Su provided the data processing assistance.

1/ Pub. L. No. 95-460, 7 U.S.C. §§ 3501-3508 (1982).

2/ 7 C.F.R. §§ 781.1-.6 (1988). See 7 C.F.R. §§ 2.21(b)(29), .27(a)(15), .65(a)(30), and .84(a)(8) (1988) for the delegation of authority.

name or address of the foreign person must also be reported within 90 days of such changes. Failure to comply with AFIDA subjects the foreign owner to a possible civil penalty of up to 25 percent of the fair market value of the interest held in the land in question.

In accordance with section 7 of the act, completed report forms are made available for public inspection in Washington, DC, within 10 days of receipt by the Secretary. Section 6 of the act requires that every 6 months the Secretary transmit to each State completed report forms for foreign-owned agricultural land in that State.

Definitions

For this report, the term "holdings" applies to all U.S. agricultural land owned by foreign persons as of December 31, 1988. For transactions that occurred in 1988, the terms "acquisitions" and "dispositions" refer to U.S. agricultural lands acquired or disposed of, respectively, by foreign persons. These terms are used as the titles for the subsequent sections analyzing the data reported under the act.

"Agricultural land" is defined in the act as all land used for agricultural, forestry, or timber production. The regulations further define agricultural land as all land used for farming, ranching, forestry, or timber and include currently idle land if its last use within the past 5 years was for farming, ranching, forestry, or timber production. The regulations also exempt all agricultural land not more than 10 acres in the aggregate if the annual gross receipts from the sale of farm, ranch, forestry, or timber products from such land do not exceed \$1,000.

AFIDA requires reporting "any interest" in the land other than a security interest (a mortgage or other debt-securing instrument). The regulations exempt leaseholds of less than 10 years' duration, contingent future interests, non-contingent future interests that do not become possessory upon termination of the present estate, nonagricultural easements and rights-of-way, and interests solely in mineral rights.

A "foreign person," as defined in the act, includes any individual who 1) is not a U.S. citizen or national, 2) is not a citizen of the Northern Mariana Islands or the Trust Territory of the Pacific Islands, or 3) is not lawfully admitted into the United States for permanent residence. Any person who holds an Immigration and Naturalization Service Form I-151 or I-551 (green card) is considered lawfully admitted for permanent residence and is exempt from the requirements of the act. Foreign governments, entities which are created under the laws of or have their principal place of business in a foreign country, and U.S. entities in which there is a significant foreign interest or substantial control are also defined as foreign persons under the act.

For this study, individuals are defined as one person or a husband and wife. The "partnership" category includes all legally defined partnerships, joint ventures, and tenancies in common that include two or more persons who are not married. The term partnership does not differentiate between joint tenancies and tenancies in common. In the interest of simplicity and brevity, fine legal distinctions, however important in an individual case, are ignored.

Each foreign entity holding land is required to file a report. Therefore, if two individuals own land as a partnership, the partnership is to file one report as a

partnership, with the partners' names and citizenship listed on the back of the form. Occasionally, however, two people will file as individuals, each filing a separate report on the same land with a partial interest of, for example, 50 percent listed on each form. Because it is not always possible to distinguish separate reports for the same land, two such individuals cannot be differentiated from one partnership. This may occur when there is no legal partnership but individuals own the land as tenants in common. If they file together on one form, they are automatically considered a partnership. If they file separately, they are generally considered individuals. Therefore, the data on individuals and partnerships and the number of reported parcels should be used with caution.

The act is designed to impute foreign person status to certain U.S. entities holding direct and indirect interests in U.S. agricultural land. For purposes of the act, this is accomplished by defining each successive link in a chain of U.S. entities containing foreign interests as a foreign person. However, only the foreign person who actually holds the direct interest in the land (that is, the first layer or tier) is considered the reporting entity. This entity need not actually be foreign, but under the act it is deemed a foreign person because another foreign person holds a significant interest or substantial control in it. In some instances, that second tier also may not actually be foreign but may be deemed foreign under the act for the same reason. The regulations define "significant interest or substantial control" to mean a 10-percent or more interest in the entity if held by a single foreign person or a group of foreign persons acting in concert, or a 50-percent or more interest if held by a group of foreign persons not acting in concert, none of whom individually holds a 10-percent or greater interest in that entity.

Under the regulations, the reporting entity (other than an individual or government), whether domestic or foreign, is required to provide information (names, addresses, citizenship, and the nature of the entity, if any) on the second-tier investments; that is, all foreign persons holding a significant interest or substantial control in the reporting entity. In turn, a second-tier entity may be required to provide information about foreign persons who hold a significant interest or substantial control in that entity.

When the foreign person is an individual from, or an entity created under the laws of, for example, West Germany, the report is processed as "Germany (West)." Where persons from many different countries hold direct and indirect interests in one piece of land, an attempt is made to identify the predominant country as the country of origin. When there is no predominant country--for example, an equal partnership between a Canadian and a West German--the report is processed as "Multiple." Reports filed by U.S. corporations with foreign shareholders are classified "U.S./ (foreign country)." For example, a U.S. corporation with a Canadian shareholder who has a significant interest or substantial control is processed as "U.S./Canada." Similarly, a U.S. corporation owned by another U.S. corporation in which a Canadian corporation has a significant interest or substantial control is processed as "U.S./Canada." Where foreign shareholders with a significant interest or substantial control are from a number of countries, none of which predominates, the report is processed as "U.S./Multiple." If three or more tiers of U.S. corporations are listed with no foreign interest indicated, the report is processed as "U.S./Third Tier." Noncorporate entities with U.S. interests are processed under the predominant country of origin.

U.S. agricultural land owned by a U.S. entity deemed a foreign person under the act (the party legally responsible for providing the information required by the act) is reported from the standpoint of the U.S. entity rather than that of the foreign shareholder.

The AFIDA procedures provide for land to be reported by parcels. All land held in the same manner (type of interest), located in one county, and acquired at the same time is considered a parcel and is to be reported on a single form. Land does not have to be adjacent to be considered part of one parcel. This parcel concept is intended to ease the reporting burden.

All parcels (and acres) for each owner have been combined under each owner. Therefore, the number of owners is less than the number of parcels. However, because owners do not always report their names in exactly the same way on each form, it is difficult to attribute these forms with great precision to one person or legal entity. Some foreign persons hold land in their own names and also hold interests in entities that own other lands. These entities are treated as separate owners.

The data in this report should be viewed in light of the foregoing caveats and those accompanying the tables. Reporters' errors must also be considered in reviewing this study. Resulting data deficiencies are noted and highlighted as appropriate. The "No Report" category in the tables means that a response to the particular question was not made. Note that the acreage figures reported do not mean that they are wholly owned by foreign investors. Of the 12.5 million foreign-owned acres, 60 percent are owned by U.S. corporations in which there is a significant interest or substantial control by foreign persons (table 8). In addition, a number of acres are owned only in part by foreign investors. See, for example, table 2, which gives the acreage equivalent for foreign owners reporting partial interests in the real estate. These partial interests reduce the 12.5 million acres of foreign holdings of U.S. agricultural land to an equivalent of 11.6 million acres.

ANALYSIS OF DATA REPORTED UNDER THE ACT

Holdings

Data in this section are derived from the 13,215 reports filed by foreign persons who held land as of December 31, 1988. These report forms account for 12,484,738 acres of all U.S. agricultural land. This is an increase of 99,119 acres over the 12,385,619 acres foreign owners reported owning as of the end of last year. ^{3/} This 99,119-acre increase is less than the 287,763 acres acquired during 1988, as reported in the acquisitions discussion. Dispositions for 1988, acreage reductions for foreign persons whose status changed to nonforeign, and acquisitions reported in 1988 for previous years are the reasons for this difference.

Concentration of Foreign Ownership of U.S. Agricultural Land

Foreigners have reported acreage holdings in 49 States, Puerto Rico, and Guam (table 1 and fig. 1). Rhode Island is the only State with no reported foreign-owned agricultural land. Except for Rhode Island and Maine (described below), only a small proportion of the privately held agricultural land in each State is foreign owned (table 1 and fig. 2). Deleting the acreage for Maine from the Northeast data, foreign investment is concentrated in the South and West which contain 36 and 35 percent, respectively, of all reported foreign holdings of U.S. agricultural land (table 9).

^{3/} The 12,534,972 acres report in last year's report overstated the amount of foreign-held U.S. agricultural land because of duplicate filings or other filing errors, and has been adjusted downward to 12,385,619 acres.

Figure 1

State Concentration of Foreign Ownership of Agricultural Land, December 31, 1988

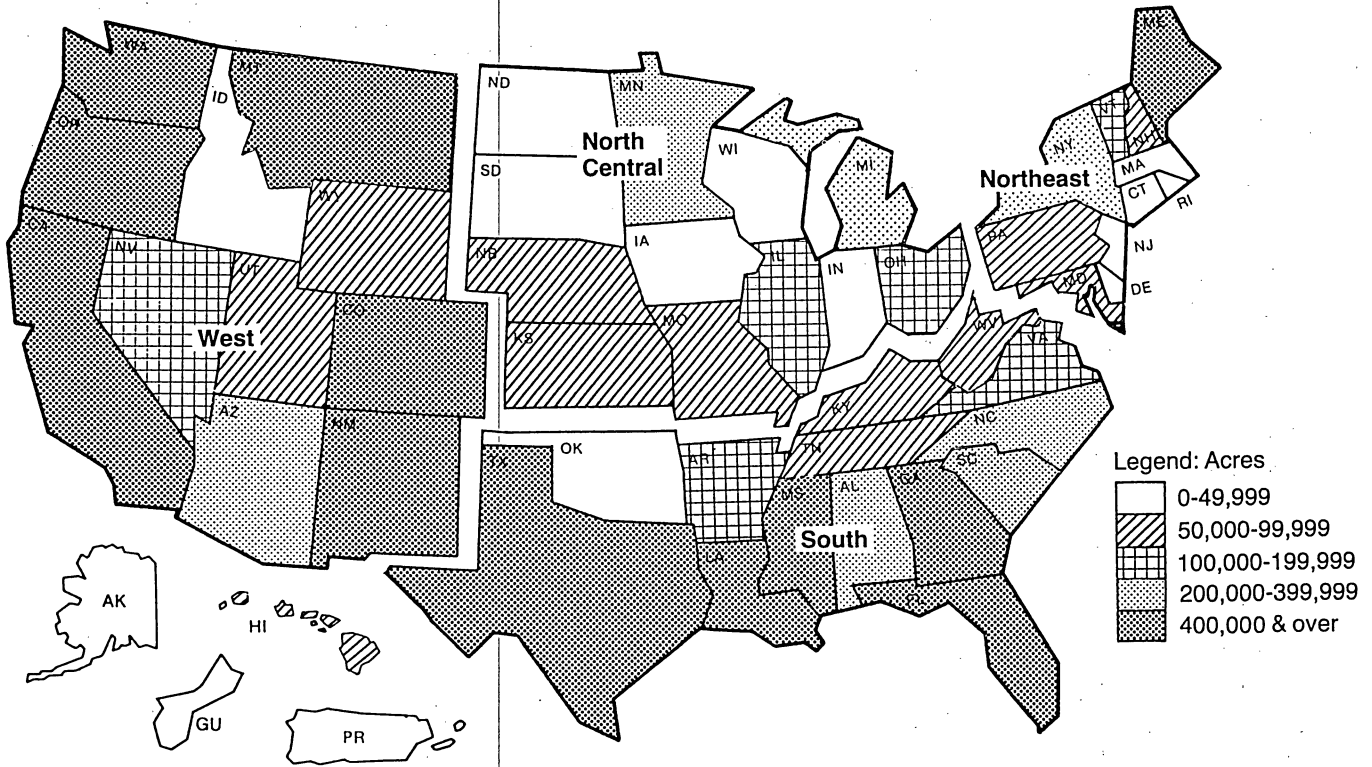

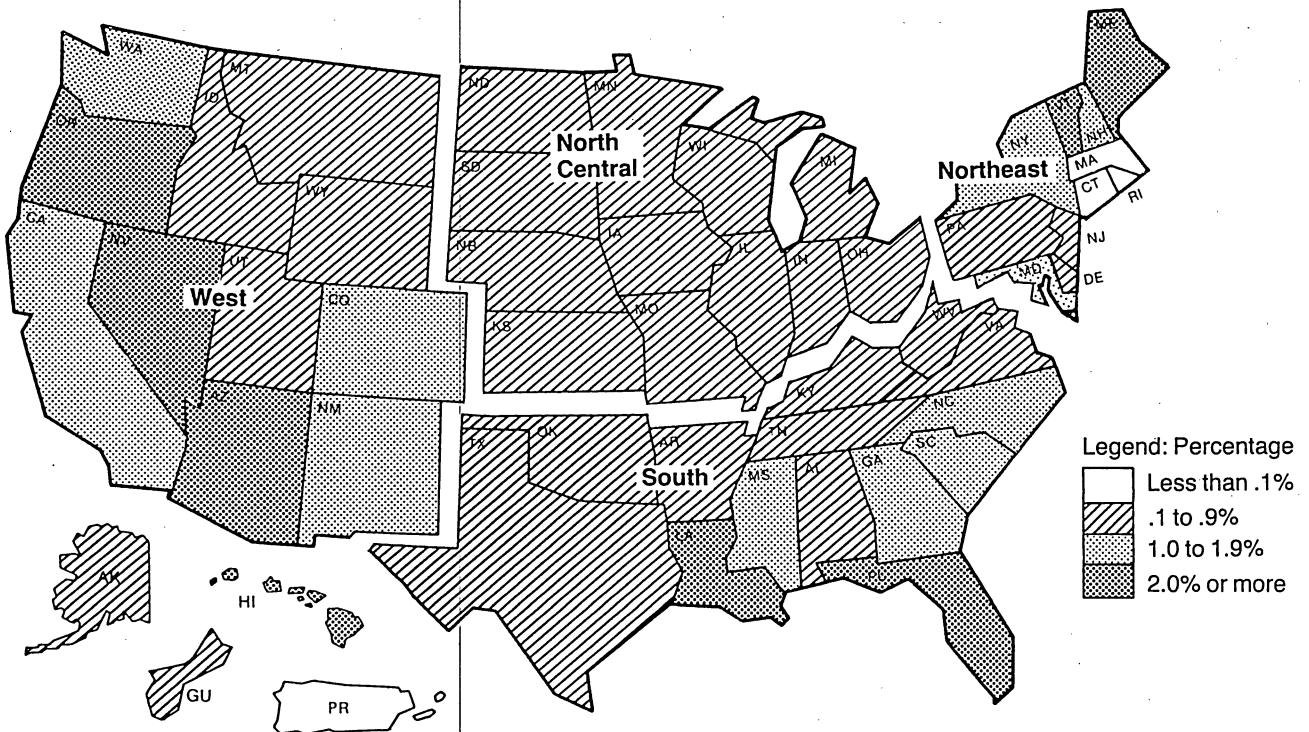

Figure 2

Proportion of Foreign-Owned Agricultural Land to All Privately Owned Agricultural Land in the United States, December 31, 1988

Maine has the largest amount of foreign-owned U.S. agricultural land, 1,799,794 acres, or 10 percent of the privately owned agricultural land in the State and approximately 14 percent of the reported foreign-owned agricultural land in the United States. Most of the foreign-owned agricultural land in Maine, 1,637,677 million acres, is timber land owned by three large companies. One company owns various percentage interests in 596,262 acres, another company owns 231,600 acres, and the third company, accounting for 809,815 acres, is a U.S. company which is a foreign person because it passed the AFIDA threshold defining foreign ownership.

Oregon, Hawaii, Louisiana, and Arizona have the next largest proportions of reported foreign-owned agricultural land to all privately owned agricultural land in their States. Texas has the second largest amount of foreign-owned acreage, 1,029,885 acres, but only 0.7 percent of the privately owned agricultural land in Texas.

Characteristics of Foreign Owners

Type of Foreign Owner. Individuals are the most common type of owner. They account for 43 percent of the owners, followed by corporations, 39 percent, and partnerships, 14 percent (table 2). The remaining 4 percent of the owners are estates, trusts, institutions, associations, and others such as real estate investment trusts, church groups, and foreign organizations not identifiable with the above categories.

Corporations own 49 percent of the parcels and 80 percent of the acreage; individuals, 33 percent of the parcels and 7 percent of the acreage; partnerships, 15 percent of the parcels and 11 percent of the acreage; and all others, 3 percent of the parcels and 2 percent of the acreage. When partial interests are taken into account, foreign-owned acreage drops from 12.4 million acres to 11.6 million, but distribution among the types of owners remains virtually the same.

Corporate-held parcels average 1,535 acres, or 3,287 acres per holder, while individual-held parcels average 214 acres, or 280 acres per holder. Partnership holdings average 690 acres per parcel, or 1,216 acres per holder, and all other holdings average 562 acres per parcel, or 707 acres per holder.

TABLE 2--U.S. AGRICULTURAL LANDHOLDINGS BY TYPE OF FOREIGN OWNER,
DECEMBER 31, 1988
(NUMBER)

OWNER	OWNERS	PARCELS	ACRES	PARCELS WITH PARTIAL INTERESTS ^{1/}	ACREAGE EQUIVALENT ^{2/}
INDIVIDUAL	3,342	4,369	936,053	265	857,185
CORPORATION	3,035	6,501	9,976,640	315	9,234,134
PARTNERSHIP	1,126	1,984	1,369,244	243	1,264,851
ESTATE	12	15	2,782	2	2,741
TRUST	252	307	180,905	8	176,307

TOTAL	7,790	13,215	12,484,738	836	11,552,480

^{1/} PARCELS WITH PARTIAL INTERESTS ARE THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

^{2/} ACREAGE EQUIVALENT EQUALS THE TOTAL ACREAGE REPORTED MULTIPLIED BY THE PERCENTAGE HELD BY THE FOREIGN OWNER.

Size of Holding. Holdings are concentrated with smaller acreage held by individuals and larger acreage held by corporations (tables 2 and 3). Owners of parcels of less than 300 acres (65 percent of all of the foreign owners) hold only slightly more than 3 percent of the land and owners of parcels with 300 acres or more (the remaining 35 percent) hold more than 96 percent of the land (table 4). Part of this concentration may be explained by the definition of agricultural land, which includes extensive uses of land such as ranching and

forestry and intensive uses of land such as orchards and vegetable farms. The different unit sizes due to differences in use may also explain part of the acreage differences in foreign-held land among the States.

In States where foreigners own few parcels, the possibility of one or two unusual situations prevents any generalization about concentration. For example, one large timber holding by a foreigner in a State with a large number of field-crop farms could easily be misinterpreted to suggest that a single foreigner was taking over the farming of the State.

Purchase Price and Value of Holdings. As noted earlier under "Type of Foreign Owner," corporations own 80 percent of the acreage. However, corporate purchase price and nonpurchase price (estimated value) at time of acquisition account for only 68 percent of the total price (table 5). The average per acre purchase price and nonpurchase price (estimated value) at time of acquisition was the lowest for corporations at \$659; followed by individuals, \$968; all others, \$1,313; and partnerships, \$1,428.

For recent acquisitions, purchase price generally will be close to, but not necessarily the same as, current value. As time passes, purchase price becomes a poor indicator of current value. For this reason, reported current value by date of acquisition was adjusted to February 1987 for all years prior to 1987 (table 6). The total adjusted current value indicates a 24-percent decrease from the reported current value. The adjustment factor was based on the national

average change in farmland value over time. The adjusted current values are not presented as absolute values for the foreign-owned land in this report but should be viewed as approximations of change in value.

The data in table 6 are not intended in any manner to indicate trends over time in the level of acquisitions by foreign persons. Acreage owned in the years listed is the total amount of land that was reported purchased during that year and which remained foreign owned as of December 31, 1988. Because land is continually being disposed of by foreign owners or there are changes in status from foreign to nonforeign or from agricultural to nonagricultural, acreage amounts in each year are decreased by these land dispositions or status changes.

1/ PURCHASE PRICE AND NONPURCHASE PRICE (ESTIMATED VALUE) AT TIME OF ACQUISITION.
 2/ REPORTED CURRENT VALUE REFLECTS VALUE AT TIME OF REPORTING AFTER FEBRUARY 1, 1979.
 3/ REPORTED CURRENT VALUE ADJUSTED TO FEBRUARY 1, 1988. REPORTED CURRENT VALUE FOR HOLDINGS ACQUIRED IN 1988 IS UNADJUSTED.

Table 7 adjusts reported current value by State for the same reasons given in the discussion of table 6. Because the reported current value in table 7 is adjusted by each State's average annual change in farmland value, the total adjusted current value will differ from that of table 6. Simply explained, not all land values in table 6 would have changed at the national average. Therefore,

^{1/} REPORTED VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE) AT TIME OF ACQUISITION.

^{2/} REPORTED CURRENT VALUE REFLECTS VALUE AT TIME OF REPORTING AFTER FEBRUARY 1, 1979.

^{3/} REPORTED CURRENT VALUE ADJUSTED TO FEBRUARY 1, 1988. REPORTED CURRENT VALUE FOR HOLDINGS ACQUIRED IN 1988 IS UNADJUSTED.

the total adjusted current value in table 7 should be a better measure of value than that of table 6. The total adjusted current value by State indicates a 5-percent decrease from the reported current value.

Country of Origin. Of the 12,484,738 acres of foreign-held agricultural land reported by foreign persons, 60 percent is held by U.S. corporations with foreign interests. The remaining 40 percent is held by foreign persons not connected with a U.S. corporation (table 8).

U.S. corporations with United Kingdom (U.K.) interests own the largest amount of reported foreign-held acres of U.S. agricultural land, 2,490,484 acres, or 20 percent. Adding to this, 289,402 acres owned by foreign persons from the United Kingdom not connected with a U.S. corporation raises U.K. ownership to 22 percent of all of the reported foreign-held acres. Foreign persons from Canada, France, and West Germany own 2,498,177 (20 percent), 1,135,661 (9 percent), and 1,130,697 (9 percent), respectively, an additional 38 percent. Foreign persons from the Netherlands Antilles, the Netherlands, and Switzerland own an additional 13 percent of the acres. These seven countries of origin own a total of 9,209,887 acres, or 74 percent of all reported foreign-owned holdings of U.S. agricultural land. Approximately 4 percent of the acreage, 505,327 acres, is owned by unidentifiable third tier persons; that is, the acreage is not attributable to any foreign country of origin because no foreign country of origin is listed through the third tier of ownership.

Foreign persons from the United Kingdom, West Germany, Canada, the Netherlands Antilles, and Switzerland own 2,582,247 acres or 58 percent of the foreign-held acres in the South (table 9). Ten percent of the acreage, 431,739 acres, is owned by unidentifiable third tier foreign persons. An additional 17 percent, 769,846 acres, is owned by foreign persons from France, Mexico, Liechtenstein, Panama, and the Netherlands.

In the West, foreign persons from the United Kingdom own more acres than any other single group--31 percent. Much of the U.K. figure is attributable to one U.S./U.K. corporation that owns 30 parcels covering 794,460 acres, and to another U.S./U.K. corporation that owns 8 parcels covering 229,988 acres. Foreign persons from Canada, West Germany, the Netherlands, and the Netherlands Antilles reported owning 1,532,008 acres or 35 percent. An additional 842,425 acres, or 19 percent, were reported by foreign persons from Luxembourg, Liechtenstein, Japan, Mexico, and Panama.

In the Northeast, foreign persons from Canada, France, and the United Kingdom own 2,277,155 acres, or 91 percent of the foreign-held acreage in the region. Eighty-three percent of this figure, 1,883,756 acres, is attributable to four companies with extensive forest holdings--one Canadian company with partial interests in 16 parcels covering 596,262 acres, one Canadian company with 1 parcel covering 231,600 acres, one U.S./France corporation with 28 parcels covering 810,949 acres, and one U.S./U.K. corporation with 19 parcels covering 244,945 acres.

In the North Central region, foreign persons from Canada, the United Kingdom, and West Germany reported owning 759,156 acres, or 63 percent of the foreign-held acres in the region. Twelve percent of the acreage is owned by U.S./multiple entities, U.S. corporations that have foreign owners from a number of countries, none of whom has a predominant interest in the corporation.

1/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.
2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

Interest in Land

Of the 13,215 parcels of foreign-held U.S. agricultural land, 85 percent of the parcels, accounting for 84 percent of the reported acreage, is held in fee interest whole (that is, the owner holds the estate in its entirety). Partial interests are held in another 6 percent of the parcels covering another 12 percent of the acres (table 10).

Under the AFIDA regulations, leases of 10 years or longer are the only leases that need be reported. ^{4/} Leases are treated separately because they represent a totally different type of interest. Questions on value, tenure, and method of acquiring land do not apply because the report form was not devised to deal with leases. The U.S. Department of Agriculture (USDA) has received 429 reports covering a net total of 1,080,775 acres of leased land. Timber land accounts for 696,246 acres, or 64 percent of the reported foreign leaseholds.

Method of Acquisition

More foreign investors reported paying cash for their U.S. agricultural landholdings than using any other method of acquisition. Of the total foreign-owned

^{1/} THE FEE INTEREST PARTIAL IS USED FOR THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

^{4/} 7 C.F.R. §§ 781.2(c) (1988)

parcels, 45 percent, covering 33 percent of the acreage, were acquired for cash only (table 10). This compares with 33 percent of the parcels, containing 18 percent of the acreage, which were acquired by credit only, and 6 percent of the parcels, containing 25 percent of the acreage, which were acquired by other method only. The other method only category includes mergers, corporations that became foreign because foreign persons obtained a significant interest or substantial control in the corporations, or an individual exchanging land for stock in a new corporation. The cash and credit only category covers an additional 9 percent of the parcels and 11 percent of the acres.

Relationship of Foreign Owner to Representative

Forms were most commonly completed by the attorneys, accounting for 28 percent of the parcels and 27 percent of the total acreage (table 10). The second largest group is the other category, which includes accountants, family members, and people associated with or employed by corporations. People in the other category filed forms for 24 percent of the parcels, representing 24 percent of the foreign-held agricultural land.

Land Use

Forty-eight percent of the reported foreign-owned holdings of agricultural land is timber or forest land (table 11); cropland accounts for only 17 percent. Foreign-owned cropland, pasture, and other agricultural land (which includes, for example, orchards and vineyards) total 47 percent of all foreign-owned holdings, but only 0.4 percent of all privately held agricultural land in the United States. The other nonagriculture category accounts for 5 percent of the reported foreign-held acres. Nonagriculture land includes acreage such as the homestead and roads commonly reported as part of the agricultural land-holding or land that is idle now but its last use within the past 5 years was for agriculture. These land-use figures should be used with caution because they reflect only information received at the time of filing and do not account for any changes in land use, which may have occurred subsequent to filing.

Foreign persons from the United Kingdom own 2,279,507 acres, or 38 percent, of the reported forest land holdings. Foreign persons from Canada and France hold an additional 26 and 18 percent of the forest land, respectively. Unidentifiable third tier foreign persons own 6 percent of the forest land. The large U.K. holdings are attributable to two companies--a U.S./U.K. corporation with 70 parcels covering 1,577,287 acres and a U.S./U.K. corporation and its subsidiary with 27 parcels covering 474,933 acres.

Foreign persons from West Germany, the Netherlands Antilles, and Canada own the most cropland, 890,094 acres, or 42 percent. Foreign persons with the next largest holdings of cropland are from Switzerland and Liechtenstein, with 8 and 7 percent, respectively. Unidentifiable Third Tier foreign persons own an additional 7 percent of the cropland.

Foreign persons from Canada, West Germany, the United Kingdom, and the Netherlands Antilles, own 45 percent, or 1,439,042 acres of the pastureland. Foreign persons from the Netherlands Antilles, the Netherlands, Luxembourg, Japan, Switzerland, Liechtenstein, and Panama own an additional 38 percent, or 1,217,600 acres.

The largest group of owners of other agricultural land are foreign persons from the Netherlands Antilles and Canada each with 12 percent of the acres, and France

2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

with 9 percent. They are followed by foreign persons from the Netherlands, U.S./Luxembourg corporations, and foreign persons from West Germany and the U.K. who own 173,778 acres, or 30 percent.

Based on reports by foreign owners who reported owning only forest land or forest land and other nonagricultural land, these reports account for 45 percent of all the foreign-owned U.S. agricultural land (tables 1 and 12). The remaining 55 percent is primarily farmland, although it includes some forest and/or other non-agricultural land commonly reported as part of the farmland holding (table 11).

The average parcel size for parcels with forest land or forest land and other nonagricultural land is 2,698 acres (table 12). Except for Maine (with 32 percent of the acreage, the uniqueness of which has been noted previously), the forest or forest and other nonagriculture acres are concentrated in the South and West. Alabama, Georgia, Louisiana, Mississippi, and South Carolina account for 26 percent. California, Oregon, and Washington account for another 21 percent of the acres reported. There are also notable holdings in Michigan, Minnesota, and New York, accounting for another 13 percent of the acres.

U.S./U.K. corporations own 38 percent of the foreign-owned U.S. forest land or forest and other nonagricultural lands (table 13). Foreign persons from Canada and U.S./France corporations own an additional 27 and 16 percent, respectively.

Individuals make up the largest number of owners reporting holdings of forest land or forest and other nonagricultural land but account for only 17 percent of the parcels and less than 2 percent of the acres (table 14). Corporations reported holding 54 percent of the parcels, representing 92 percent of the acreage. The remaining 29 percent of the parcels and 6 percent of the acres are held by partnerships, trusts, estates, and others. When partial interests are taken into account, the acreage equivalent is 478,798 acres less than the acres for which reports were filed.

1/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

Owners of parcels with less than 300 acres, 60 percent of all the owners, own 22 percent of the parcels covering only 0.6 percent of the forest land or forest and other nonagricultural land (table 15). The remaining 40 percent of the owners, owning parcels with 300 acres or more, own 78 percent of the parcels covering 99.4 percent of these lands.

Intended Use

Concern has been expressed about farmland being purchased and taken out of agricultural production. Foreigners do not appear to be proceeding in this direction to any substantial degree. However, the following data on intended use and tenure, like much of the use and value data, are based on information at the time of filing; they do not reflect subsequent changes.

No change in intended use was reported for 93 percent of the acres (table 16). Intended use changes to other agricultural usage were reported for holders of 2 percent of the acres. Reports for 4 percent of the acres indicate that some change to nonagricultural use is intended. Such reports do not necessarily mean, however, that all of these acres will be changed. What the reports do mean is that the holders of these acres intended to change the use of some of the acreage. However, the report form does not ask how many acres will be involved. Reports representing 1 percent of the acres did not indicate intended use.

TOTAL	696	2,096	5,655,900

Tenure

Tenants and foreign owners operate 38 percent and 29 percent of the parcels of foreign-held U.S. agricultural land, respectively, whereas managers operate only 9 percent of the parcels (table 17). No responses to the tenure question were received for the remaining 24 percent of the parcels. However, tenants operate 25 percent of the acres, while foreign owners directly operate 42 percent and managers 6 percent. No responses on tenure were received for the remaining 27 percent of the acres.

Rental agreements were reported for 5,037 parcels, or 38 percent, covering 24 percent of the acres. Of the rental agreements, cash agreements accounted for 64 percent and cropshare agreements for 34 percent of the parcels.

Tenure Change

No tenure changes were reported for 43 percent of the parcels, or 41 percent of the acres (table 17). Reports for 33 percent of the parcels containing 26 percent of the acres indicate a new tenure arrangement on at least part of the land. The acreage affected by the new tenure arrangements is not reported. Thus, the acreage may be overstated; that is, all of the acres in these parcels are not necessarily affected by new tenure arrangements. Nevertheless, reports for 0.3 percent of the parcels, accounting for 0.4 percent of the acres, indicated that some of the tenure arrangements would remain the same and some would change. No responses on tenure changes were received for 25 percent of the parcels containing 32 percent of the acres.

In the South, no changes in tenure were reported for virtually the same number of parcels and acres as were reported for parcels and acres with changes--40 percent of the parcels covering 35 percent of the acres were reported as having no changes and the same percentages were reported for new tenure arrangements. In the West, North Central, and Northeast, however, there were more reports for parcels and acres with no changes in tenure than there were reports for new tenure arrangements.

Acquisitions

The data in this section are net figures for U.S. agricultural land acquired by foreign persons from January 1 through December 31, 1988; that is, the total reported acquisitions for the period less dispositions data for lands that were both acquired and disposed during calendar year 1988.

Foreign persons reported that they had acquired 287 parcels of U.S. agricultural land covering 287,763 acres from January 1 through December 31, 1988 (tables 18 and 19). Included in these acquisitions data are reports filed by U.S. entities that became foreign during the period. This change occurs when a significant interest or substantial control in a U.S. entity is subsequently acquired by a foreign person. Consequently, all of the reported acres are not necessarily recent land purchases. These acquisitions could include land held for any length of time by a U.S. entity that recently came within the definition of a foreign person under the act.

The reported acquisitions data should be regarded as preliminary in that they understate to some degree the total acreage acquired by foreign persons during the reporting period. Because foreign persons have a statutory 90 days within which to report their acquisitions, not all the acquisitions acquired in the 90 days preceding the December 31, 1988, closing date of this report were received for processing by USDA. Therefore, a number of reports for October, November, and December are not included in this report. Table 40 shows that the distribution of acquisition dates is skewed toward the first three quarters of 1988. A further understatement of the acreage acquired by foreign persons during the reporting period may result from transaction reports that are not timely filed and/or completed by the closing date of this report. Consequently, such reports would not have been processed for inclusion in this report.

Concentration of Foreign Acquisitions of U.S. Agricultural Land

Sixty-five percent of the acres acquired during 1988 were in Colorado, Minnesota, and Florida (table 18). Thirty-nine percent of the acquisitions are concentrated in the South (table 24).

Characteristics of Foreign Owners

Type of Foreign Owner. Corporations reported acquiring 67 percent of the parcels and 75 percent of the acres (table 19). Individuals account for 4 percent of the acres; partnerships, 10 percent; and others, 1 percent. When partial interests of foreign investors are taken into account, the 287,763 acres drop to an acreage equivalent of 284,287, but the distribution among the types of owners remains virtually the same.

Corporations acquired an average of 1,124 acres per parcel, or 1,749 acres per owner, compared with individuals who acquired an average 336 acres per parcel, or 254 acres per holder. Partnerships reported acquisitions averaging 1,100 acres per parcel, or 1,365 acres per owner; and others reported 178 acres per parcel and per owner.

1/ PARCELS WITH PARTIAL INTERESTS ARE THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

2/ ACREAGE EQUIVALENT EQUALS THE TOTAL ACREAGE REPORTED MULTIPLIED BY THE PERCENTAGE HELD BY THE FOREIGN OWNER.

The largest acreage acquired by individuals during the period was reported for Georgia and Colorado (table 20). Organizations reported acquiring the largest acreage in Colorado, Minnesota, and Florida.

Size of Acquisition. The largest number of owners reported their acquisitions in the range of 100 to 999 acres (table 21). Owners of parcels with 1,000 acres or more (14 percent of the owners) acquired approximately 86 percent of the acres and owners of parcels with less than 1,000 acres (86 percent of the owners) acquired the remaining 14 percent of the acres. All parcels of 1,000 or more acres accounted for 45 percent of the total value. The value per acre, however, is concentrated in the reports of holders of less than 20 acres--\$14,867 per acre, compared with \$574 per acre for holdings of 1,000 or more acres.

Purchase Price and Value of Acquisitions. Corporations account for 62 percent of the purchase price and nonpurchase price (estimated value) at time of acquisition (table 22). The average per acre purchase price and nonpurchase price (estimated value) is lowest for corporations at \$915; followed by individuals, \$1,566; partnerships, \$1,645; and others, \$4,331.

Equity is frequently used to measure net foreign investment transfer. To approximate equity, debt was subtracted from current value for all reports that provided information on debt and current value. The 287 reports providing information on debt, \$69,010,000, and current value, \$319,179,000, resulted in an equity figure of \$250,169,000 (table 22). These figures reveal an equity figure of 78 percent in relation to current value.

Country of Origin. Foreign persons not affiliated with a U.S. corporation acquired 31 percent of the acreage. U.S. corporations with foreign interests

3/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

Most of the acres acquired during this period were in the South--39 percent of the acres. Foreign persons from Japan not affiliated with a U.S. corporation acquired 24 percent of these acres (table 24). U.S./Japan corporations acquired 38 percent of the acres in the West and U.S./Canada corporations acquired 57 and 85 percent of the acres in the Northeast and North Central regions, respectively.

2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

Interest in Land

Ninety-two percent of the parcels, accounting for 94 percent of the reported acres, were acquired in fee interest whole (table 25). Purchase contracts account for an additional 4 percent of the acres.

Method of Acquisition

Sixty-four percent of the parcels, covering 69 percent of the acres, were acquired for cash only (table 25). This compares with 16 percent of the parcels, covering 14 percent of the remaining acres, which were acquired by other method only.

Land Use

Of the acres acquired in 1987, 36 percent were in forest, 24 percent in pasture, 22 percent in crop, 15 percent in other agriculture, and 3 percent in other nonagriculture (table 26).

Separating out data on reports for only forest land or forest land and other nonagricultural land shows that 35 percent of the acquisitions are in these two land-use categories (table 27). The bulk of the acquisitions, 61 percent, is primarily farmland, although it includes some forest and/or other nonagricultural land commonly reported as part of the farmland acquisition (table 26).

1/ VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE).

U.S./Canada corporations purchased most of the U.S. forest land or forest and other nonagricultural lands (table 28), accounting for 83 percent of such acquisitions, 83,155 acres.

Corporations account for the largest number of owners reporting acquisitions of forest land or forest and other nonagricultural land--63 percent of the owners reported acquiring 71 percent of the parcels covering 90 percent of the acres (table 29). Twenty-five percent of the owners were individuals who reported acquiring 20 percent of the parcels, but only 4 percent of the acres.

PARTNERSHIP	3	3	6,367	0	6,367
TRUST	1	1	34	0	34
TOTAL	35	45	100,141	2	99,291

^{1/} PARCELS WITH PARTIAL INTERESTS ARE THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THEN 100 PERCENT.

^{2/} ACREAGE EQUIVALENT EQUALS THE TOTAL ACREAGE REPORTED MULTIPLIED BY THE PERCENTAGE HELD BY THE FOREIGN OWNER.

Owners of parcels with less than 1,000 acres, 80 percent of the owners, reported acquiring 73 percent of the parcels covering only 7 percent of the forest or forest and other nonagricultural lands (table 30). The remaining 20 percent of the owners, owning parcels with 1,000 or more acres, reported acquiring 27 percent of the parcels covering 93 percent of these lands.

Intended Use

Reports for 91 percent of the acres indicated no change in land use (table 31). Intended changes to other agricultural and nonagricultural uses were reported for holders of 5 percent of the acquired acres. Because the form asks for changes by parcels and not acres, all of these acres may not be affected by the indicated changes. No reports on intended use were received for 4 percent of the acres.

Tenure

Tenants operate 32 percent of the parcels acquired during the period and 24 percent of the acres, whereas foreign owners operate 26 percent of the parcels and 16 percent of the acres (table 32). Managers, however, operate only 6 percent of the parcels and 11 percent of the acres. No responses on tenure were received for 36 percent of the parcels covering 49 percent of the acres.

TABLE 30--FOREIGN ACQUISITIONS OF U.S. FOREST AND OTHER NONAGRICULTURAL LAND BY SIZE OF ACQUISITION, JANUARY 1 - DECEMBER 31, 1988

SIZE (ACRES)	OWNERS REPORTING (NUMBER)	PARCELS REPORTED (NUMBER)	ACRES (NUMBER)	VALUE (1,000 DOLLARS) ^{1/}

^{1/} VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE).

TABLE 31--INTENDED USE OF U.S. AGRICULTURAL LAND ACQUISITIONS OF FOREIGN OWNERS, JANUARY 1 - DECEMBER 31, 1988 (NUMBER)

ITEM	NO CHANGE	OTHER AGRICULTURE	OTHER NON-AGRICULTURE	NO REPORT	TOTAL
INDIVIDUAL:					
PARCELS REPORTED	49	1	6	0	56
ACRES	10,106	251	2,348	0	12,705
ORGANIZATION:					
PARCELS REPORTED	179	10	36	6	231
ACRES	252,828	1,985	10,314	9,931	275,058
TOTAL:					
PARCELS REPORTED	228	11	42	6	287
ACRES	262,934	2,236	12,662	9,931	287,763

Rental agreements were reported for only 1 percent of the parcels covering less than 1 percent of the acres acquired during this period. No responses on rental agreements were received for 73 percent of the parcels covering 84 percent of the acres.

Tenure Change

Reports for 43 percent of the parcels acquired during the period indicate no tenure change for 41 percent of the acreage (table 32). Reports for 25 percent of the parcels, containing 16 percent of the acres, indicated a tenure change. Because the number of acres affected by new tenure arrangements was not reported, the acreage may be overstated; that is, all of these acres are not necessarily affected by new tenure arrangements. No responses on tenure change were made for 31 percent of the parcels accounting for 43 percent of the acres.

Dispositions, Land-Use Changes, and Changes in Status

Data in this section are derived from reports filed by foreign investors who disposed of 485 parcels of U.S. agricultural land covering 577,373 acres between January 1 and December 31, 1988. In addition to these dispositions, there were reports of land-use changes out of agriculture affecting 3 parcels covering 195 acres and reports of change in status from foreign to nonforeign affecting 20 parcels covering 9,644 acres.

For the same reasons noted at the outset of the acquisitions discussion, the reported data for dispositions, land-use changes, and changes in status should be regarded as preliminary. Reports that were not timely filed and/or completed or statutorily were not required to be filed by the closing date for this report are not included.

^{1/} VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE).

Characteristics of Foreign Owners Disposing Land

Type of Foreign Owner. The largest amount of acres disposed were in Maine and Pennsylvania, accounting for 59 percent of the dispositions acreage (table 33). The greatest number of dispositions occurred in Georgia and Vermont, accounting for 30 percent of the parcels but only 7 percent of the acreage.

Transfers by foreign investors to U.S. purchasers accounted for 66 percent of the parcels and 36 percent of the acres (table 34). Reports for 12 percent of the parcels and 6 percent of the acres indicated that they were transferred to other known foreign persons. Reports for 21 percent of the parcels covering 58 percent of the acres indicated dispositions to persons of unknown citizenship.

Corporations were the most active type of foreign owner disposing of land-- accounting for 63 percent of the owners, 79 percent of the parcels, and 90

TOTAL	485	577,373

percent of the acres (table 35). In comparison, individuals accounted for 23 percent of the owners, 13 percent of the parcels, and 1 percent of the acres.

Size of Disposition. The most acreage disposed of was for parcels with 1,000 or more acres, accounting for 96 percent of the acres (table 36). As should be expected, sales prices per acre were higher for smaller parcels, although not necessarily the smallest parcels. Average selling price for parcels of less than 20 acres was \$20,164 per acre, compared with \$389 per acre for parcels of 1,000 or more acres. Average selling price of all reported dispositions was \$527 per acre.

Country of Origin. U.S./U.K. and U.S./France corporations disposed of the most acreage--75 percent (table 37). Most of the dispositions occurred in the West, 21 percent of the parcels covering 53 percent of the acres (table 38). U.S./U.K. corporations disposed of 85 percent of the acres in the region. The Northeast accounted for an additional 27 percent of the disposed acres covering 24 percent of the acres. U.S./France corporations disposed of 94 percent of the acres in the region.

Land Use

Six percent of the dispositions were cropland, 8 percent pasture, 84 percent forest, and 1 percent each other agriculture and other nonagriculture (table 39). Unidentified third tier foreign persons not associated with a U.S. corporation disposed of 26 percent of the cropland. Foreign persons from the Netherlands Antilles disposed of 38 percent of the pasture land. U.S./U.K. corporations and foreign persons from France disposed of 92 percent of the forest land.

Trends

The data for 1988 are skewed toward the first part of the year, whereas the data for 1981 through 1987 are generally more evenly distributed throughout the year (table 40). This has also been the case for current year data in past AFIDA reports. This can be explained primarily in terms of the AFIDA reporting requirements, which allow persons 90 days to report their transactions to USDA. Consequently, not all of the transactions occurring in the 90 days preceding the closing date of the report are reported to USDA by that date. Some of the skewing is also due to reports that are not timely filed and/or completed by the closing date. The foregoing discussion also means that the current data, and in some instances data for prior years, are understated and should be regarded as

13. CERTIFICATION - I certify that the information entered in this report is complete and correct. I understand that falsification of reporting is subject to a civil penalty not to exceed 25% of the fair market value of the interest held in the tract of land.

14. SIGNATURE (Owner or legally authorized representative) **TITLE** **DATE**

FOREIGN PERSON COPY

NOTE P.L. 95-460 authorizes collection of the data on this form. The data will be used to determine the effects of foreign persons acquiring, transferring and holding agricultural land, and the effects of such activity on family farms and rural communities. Furnishing the data is mandatory. Failure to comply or falsification of reporting is subject to civil penalty, not to exceed 25 percent of the fair market value of the interest held in the tract on the date of the assessment of such penalty. The data may be furnished to any Agency responsible for enforcing the provision of the Act and to the public.

DETERMINATION OF "FOREIGN PERSON" STATUS

DEFINITION: "Person" means any individual, corporation, company, association, firm, partnership, society, joint stock company, trust, estate, or any other legal entity.

You are a "foreign person" under the provisions of P.L. 95-460 and must complete the front side of this form (ASCS-153) if your answer is "NO" to all the statements numbered 1, 2, and 3 below.

- | | YES | NO |
|---|-----|----|
| 1. I AM a citizen of the United States. | | |
| 2. I AM a citizen of the Northern Mariana Islands or the Trust Territories of the Pacific Islands. | | |
| 3. I AM lawfully admitted to the United States for permanent residence, or paroled into the United States, under the Immigration and Nationality Act. | | |

You are a "foreign person" under the provisions of P.L. 95-460 and must complete the front side of this form (ASCS-153) if your answer is "YES" to any of the statements numbered 4a, 4b, and 5 below.

- | | YES | NO |
|--|-----|----|
| 4. I AM a "person" other than an individual or government, which is created or organized under the laws of: | | |
| a. A foreign government of which has its principal place of business located outside the United States. | | |
| b. Any State of the United States, and in which significant interest or substantial control <u>1/</u> is held directly or indirectly by any foreign individual, government, or person. | | |
| 5. I AM a foreign government. | | |

GENERAL INSTRUCTIONS

Complete this form in an original and three copies for each tract of land. Insertion of carbons is necessary. Report as a tract all acreages under the same ownership in each county or parish acquired or transferred on the same date. Land in different counties or parishes and land acquired or transferred on different dates must be reported as separate tracts.

Return the original and two copies to the County Agricultural Stabilization and Conservation Service (ASCS) Office where the tract of land is located. Retain the last copy (*Foreign Person Copy*) for your records. **DO NOT SEND THIS FORM DIRECTLY TO WASHINGTON, D.C.**

After the original disclosure on ASCS-153 on the tract(s) of land owned by the same person within a county or parish, each subsequent change of ownership or use must be reported by filing another ASCS-153.

ITEM INSTRUCTIONS AND REPORTING DATES

ITEM 1. ONLY ONE BOX MAY BE CHECKED

If the tract of land to be listed under Item 2 on the front side of this document was:

-Owned on February 1, 1979, check **A. Land Holding** } Reporting Date: This document is required to be completed and returned by August 1, 1979.

If the tract of land to be listed under Item 2 on the front side of this document was, on or after February 2, 1979:

-Acquired, check **B. Land Acquisition**
 -Disposed of, check **C. Land Disposition**
 -Changed from non-agricultural to agricultural use, check **D. Land Use Change To Agriculture**
 -Changed from agricultural to non-agricultural use, check **E. Land Use Change To Non-Agriculture** } Reporting Date: If any of these activities are checked in Item 1, return the completed ASCS-153 within ninety (90) days from the date of the transaction.

ITEM 8. The date entered would be as follows for the activity checked in Item 1:

- Box A or B - Date acquired.
- Box C - Date disposed of.
- Box D or E - Date land use changed.

ADDITIONAL INFORMATION (Use additional sheets if more space is needed)

1/ Significant interest or substantial control as defined in 7 CFR 781.2 (k).
