# Foreign Ownership of U.S. Agricultural Land Through December 31, 1986

J. Peter DeBraal

FOREIGN OWNERSHIP OF U.S. AGRICULTURAL LAND THROUGH DECEMBER 31, 1986, by  
J. Peter DeBraal, Natural Resource Economics Division, Economic Research Service,  
U.S. Department of Agriculture. ERS Staff Report No. AGES870319.

ABSTRACT

Foreigners owned 12.4 million acres of U.S. agricultural land as of December 31, 1986. This is slightly less than 1 percent of all privately held agricultural land and 0.5 percent of all land in the United States. These and other findings are based on an analysis of reports submitted in compliance with the Agricultural Foreign Investment Disclosure Act of 1978.

Keywords: Agricultural land, foreign landownership, landholdings, land acquisitions, land dispositions.

April 1987

PREFACE

This report is made pursuant to section 5 of the Agricultural Foreign Investment Disclosure Act which, among other things, requires the Secretary of Agriculture to prepare an analysis of foreign ownership of U.S. agricultural land. The act requires an annual report to the President and the Congress on a calendar-year basis. This report covers information received through December 31, 1986.

## SUMMARY

Foreign persons reported that they owned 12.4 million acres, or slightly less than 1 percent, of privately owned U.S. agricultural land (farmland and forestry) as of December 31, 1986. This figure is 369,000 acres larger than the figure at the end of 1985. These and other findings are based on an analysis of reports submitted to the U.S. Department of Agriculture under the Agricultural Foreign Investment Disclosure Act of 1978.

Information received at the time of reporting shows that forest land accounts for 52 percent of all foreign-owned acreage, cropland for 17 percent, pasture and other agricultural land for 26 percent, and nonagricultural and unreported uses for 5 percent.

Corporations own 79 percent of the holdings acreage; partnerships, 11 percent; and individuals, 8 percent. The remaining 2 percent is held by estates, trusts, associations, institutions, and others.

U.S. corporations, in which foreign persons have a significant interest or substantial control, reported owning 57 percent of all the foreign-held acreage. The remaining 43 percent was reported as being held or acquired by foreign persons not affiliated with a U.S. corporation.

A number of parcels are owned only in part by foreign investors; that is, the foreign interest in some parcels is less than 100 percent, with the remaining percentage being owned, for example, by a U.S. partnership. When the 12.4 million acres are adjusted for these partial interests, the total foreign-owned acreage drops to an equivalent of 11.4 million acres.

Foreign persons from the United Kingdom, Canada, West Germany, the Netherlands Antilles, and Switzerland account for 70 percent of the foreign-held acreage.

The largest number of acres owned by foreign persons was reported in Maine. Foreign holdings in Maine account for 10 percent of Maine's privately owned agricultural land. These holdings represent 15 percent of all the reported foreign-owned agricultural land nationwide. Three companies own 91 percent of the foreign-held acres in Maine, all in forest land. Two companies are Canadian and the third is a U.S. corporation which is partially foreign owned.

Except for Maine, foreign holdings are concentrated in the South and West which contain 36 and 33 percent, respectively, of the holdings. Rhode Island is the only State with no reported foreign-owned agricultural land.

Foreigners do not appear to be taking purchased agricultural land out of production. No change in intended use at the time of filing was reported for 92 percent of the acreage. No change in tenure was reported for 45 percent of the acres while some change was reported for 27 percent of the acres. No responses regarding tenure change were received for the remaining 27 percent of the acres.

Data gathering and analysis cost the U.S. Department of Agriculture approximately \$318,000 for 1986.

# Foreign Ownership of U.S. Agricultural Land Through December 31, 1986

J. Peter DeBraal

A Report to the President and the Congress  
Under the Agricultural Foreign Investment Disclosure Act of 1978

## INTRODUCTION

Foreign individuals and entities reported owning 12.4 million acres of U.S. agricultural land as of December 31, 1986. This is slightly less than 1 percent of all privately owned U.S. agricultural land and approximately 0.5 percent of all land in the United States.

### Summary of the Act and Regulations

The Agricultural Foreign Investment Disclosure Act of 1978 (AFIDA), 1/ as implemented by the regulations, 2/ requires all foreign persons holding agricultural land as of February 1, 1979, to file a report of such holdings with the Secretary of Agriculture by August 1, 1979. All foreign persons who acquire or dispose of agricultural land on or after February 2, 1979, are required to report such transactions within 90 days of the transfer. In addition, any foreign person who holds land which subsequently becomes or ceases to be agricultural land or any person who holds agricultural land who subsequently becomes or ceases to be a foreign person must also file a report within 90 days of such change.

AFIDA specifies in detail the information to be supplied by the foreign person and provides that necessary additional information may be obtained by the Secretary. The information required to be reported consists of the legal name and address of the foreign person; citizenship, if an individual; if not an individual or a government, nature of the legal entity, including the entity's country of creation and principal place of business; type of interest; legal description; acreage; purchase price or any other consideration given; intended use; where applicable, information about the representative of the foreign person; how the interest in the land was transferred; the relationship of the foreign owner to the operator; type of rental agreement, if any; and the date the interest in the land was transferred. In the case of a disposition, the party disposing of the interest is also required to give the legal name and address of the purchaser; citizenship, if the purchaser is an individual; and if the purchaser is not an individual or government, the nature of the entity, country of creation, and principal place of business. Any change in the legal

---

1/ Pub. L. No. 95-460, 7 U.S.C. §§ 3501-3508 (1982).

2/ 7 C.F.R. §§ 781.1-.5 (1986). See 7 C.F.R. §§ 2.21(b)(34), .27(b)(15), .65(a) (34), and .85(a)(15) (1986) for the delegation of authority.

name or address of the foreign person must also be reported within 90 days of such changes. Failure to comply with AFIDA subjects the foreign owner to a possible civil penalty of up to 25 percent of the fair market value of the interest held in the land in question.

In accordance with section 7 of the act, completed report forms are made available for public inspection in Washington, DC, within 10 days of receipt by the Secretary. Section 6 of the act requires that every 6 months the Secretary transmit to each State completed report forms for foreign-owned agricultural land in that State.

#### Definitions

For this report, the term "holdings" applies to all U.S. agricultural land owned by foreign persons as of December 31, 1986. For those transactions which occurred in 1986, the terms "acquisitions" and "dispositions" refer to U.S. agricultural lands acquired or disposed of, respectively, by foreign persons. These terms are used as the titles for the subsequent sections analyzing the data reported under the act.

"Agricultural land" is defined in the act as all land used for agricultural, forestry, or timber production. The regulations further define agricultural land as all land used for farming, ranching, forestry, or timber and include currently idle land if its last use within the past 5 years was for farming, ranching, forestry, or timber production. The regulations also exempt all agricultural land not more than 10 acres in the aggregate if the annual gross receipts from the sale of farm, ranch, forestry, or timber products from such land do not exceed \$1,000.

AFIDA requires reporting "any interest" in the land other than a security interest (a mortgage or other debt-securing instrument). The regulations exempt leaseholds of less than 10 years' duration, contingent future interests, those noncontingent future interests that do not become possessory upon termination of the present estate, nonagricultural easements and rights-of-way, and interests solely in mineral rights.

A "foreign person," as defined in the act, includes any individual who 1) is not a U.S. citizen or national, 2) is not a citizen of the Northern Mariana Islands or the Trust Territories of the Pacific Islands, or 3) is not lawfully admitted into the United States for permanent residence. Any person who holds an Immigration and Naturalization Service Form I-151 or I-551 (green card) is considered lawfully admitted for permanent residence and is exempt from the requirements of the act. Foreign governments, entities which are created under the laws of or have their principal place of business in a foreign country, and U.S. entities in which there is a significant foreign interest or substantial control are also defined as foreign persons under the act.

For this study, individuals are defined as one person or a husband and wife. The "partnership" category includes all legally defined partnerships, joint ventures, and tenancies in common which include two or more persons who are not married. The term partnership does not differentiate between joint tenancies and tenancies in common. In the interest of simplicity and brevity, fine legal distinctions, however important in an individual case, are ignored.

Each foreign entity holding land is required to file a report. Therefore, if two individuals own land as a partnership, the partnership is to file one report

as a partnership, with the partners' names and citizenship listed on the back of the form. Occasionally, however, two people will file as individuals, each filing a separate report on the same land with a partial interest of, for example, 50 percent listed on each form. Because it is not always possible to distinguish separate reports for the same land, two such individuals cannot be differentiated from one partnership. This may occur when there is no legal partnership but individuals own the land as tenants in common. If they file together on one form, they are automatically considered a partnership. If they file separately, they are generally considered individuals. Therefore, the data on individuals and partnerships and the number of reported parcels should be used with caution.

The act is designed to impute foreign person status to certain U.S. entities holding direct and indirect interests in U.S. agricultural land. For purposes of the act, this is accomplished by defining each successive link in a chain of U.S. entities containing foreign interests as a foreign person. However, only the foreign person who actually holds the direct interest in the land (that is, the first layer or tier) is considered the reporting entity. This entity need not actually be foreign, but under the act it is deemed a foreign person because another foreign person holds a significant interest or substantial control in it. In some instances, that second tier also may not actually be foreign but may be deemed foreign under the act for the same reason. The regulations define "significant interest or substantial control" to mean a 10-percent or more interest in the entity if held by a single foreign person or a group of foreign persons acting in concert, or a 50-percent or more interest if held by a group of foreign persons not acting in concert, none of whom individually holds a 10-percent or greater interest in that entity.

Under the regulations, the reporting entity (other than an individual or government), whether domestic or foreign, is required to provide information (names, addresses, citizenship, and the nature of the entity, if any) on the second-tier investments; that is, all foreign persons holding a significant interest or substantial control in the reporting entity. In turn, a second-tier entity may be required to provide information about foreign persons who hold a significant interest or substantial control in that entity.

When the foreign person is an individual from, or an entity created under the laws of, for example, West Germany, the report is processed as "Germany (West)." Where persons from many different countries hold direct and indirect interests in one piece of land, an attempt is made to identify the predominant country as the country of origin. When there is no predominant country—for example, an equal partnership between a Canadian and a West German—the report is processed as "Multiple." Reports filed by U.S. corporations with foreign shareholders are classified "U.S./(foreign country)." For example, a U.S. corporation with a Canadian shareholder who has a significant interest or substantial control is processed as "U.S./Canada." Similarly, a U.S. corporation owned by another U.S. corporation in which a Canadian corporation has a significant interest or substantial control is processed as "U.S./Canada." Where foreign shareholders with a significant interest or substantial control are from a number of countries, none of which predominates, the report is processed as "U.S./Multiple." If three or more tiers of U.S. corporations are listed with no foreign interest indicated, the report is processed as "U.S./Third Tier." Noncorporate entities with U.S. interests are processed under the predominant country of origin.

U.S. agricultural land owned by a U.S. entity deemed a foreign person under the act (the party legally responsible for providing the information required by the act) is reported from the standpoint of the U.S. entity rather than that of the foreign shareholder.

The AFIDA procedures provide for land to be reported by parcels. All land held in the same manner (type of interest), located in one county, and acquired at the same time is considered a parcel and is to be reported on a single form. Land does not have to be adjacent to be considered part of one parcel. This parcel concept is intended to ease the reporting burden.

All of the parcels (and acres) for each owner have been combined under each owner. Therefore, the number of owners is less than the number of parcels. However, because owners do not always report their names in exactly the same way on each form, it is difficult to attribute these forms with great precision to one person or legal entity. Some foreign persons hold land in their own names and also hold interests in entities which own other lands. These entities are treated as separate owners.

The data in this report should be viewed in light of the foregoing caveats and those accompanying the tables. Reporters' errors must also be considered in reviewing this study. Resulting data deficiencies are noted and highlighted as appropriate. The "No Report" category in the tables means that a response to the particular question was not made. Note that the acreage figures reported do not mean that they are wholly owned by foreign investors. Of the 12.4 million foreign-owned acres, 57 percent are owned by U.S. corporations in which there is a significant interest or substantial control by foreign persons (table 8). In addition, a number of acres are owned only in part by foreign investors. See, for example, table 2, which gives the acreage equivalent for those foreign owners reporting partial interests in the real estate. These partial interests reduce the 12.4 million acres of foreign holdings of U.S. agricultural land to an equivalent of 11.4 million acres.

#### ANALYSIS OF DATA REPORTED UNDER THE ACT

##### Holdings

Data in this section are derived from the 13,071 reports filed by foreign persons who held land as of December 31, 1986. These report forms account for 12,418,997 acres of all U.S. agricultural land. This is an increase of 368,945 acres over the 12,050,052 acres foreign owners reported last year. <sup>3/</sup> This 368,945-acre increase is less than the 1,675,270 acres acquired during 1986, as reported in the acquisitions discussion. Dispositions for 1986, acreage reductions for foreign persons whose status changed to nonforeign, and acquisitions reported in 1986 for previous years are the reasons for this occurrence.

##### Concentration of Foreign Ownership of U.S. Agricultural Land

Foreigners have reported acreage holdings in 49 States, Puerto Rico, and Guam (table 1 and fig. 1). Rhode Island is the only State with no reported foreign-owned agricultural land. Except for Rhode Island and Maine (described below), only a small proportion of the privately held agricultural land in each State is foreign owned (table 1 and fig. 2). Deleting the acreage for Maine from the Northeast data, foreign investment is concentrated in the South and West which contain 36 and 33 percent, respectively, of all reported foreign holdings of U.S. agricultural land (table 9).

<sup>3/</sup> The 12,094,273 acres report in last year's report overstated the amount of foreign-held U.S. agricultural land and has been adjusted downward to 12,050,052 acres.

Figure 1

**State Concentration of Foreign Ownership of Agricultural Land, December 31, 1986**

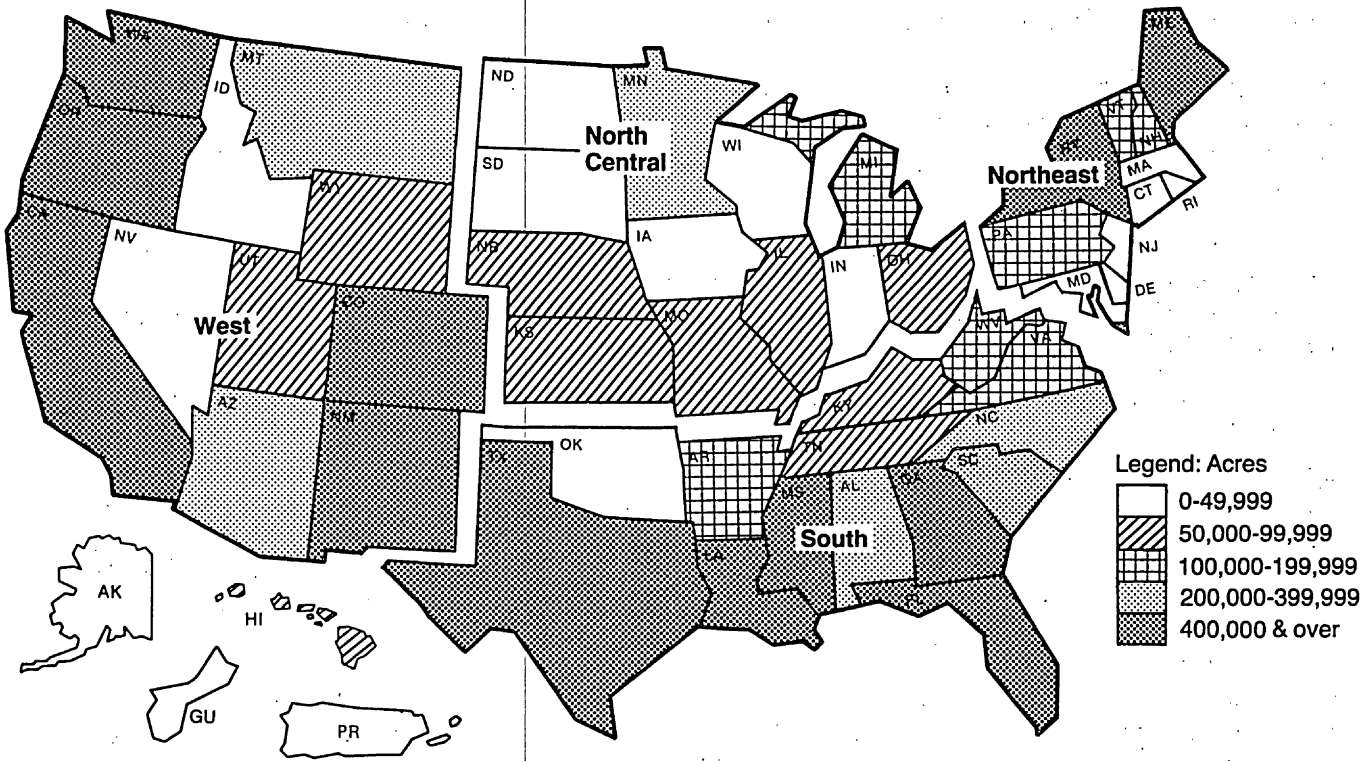

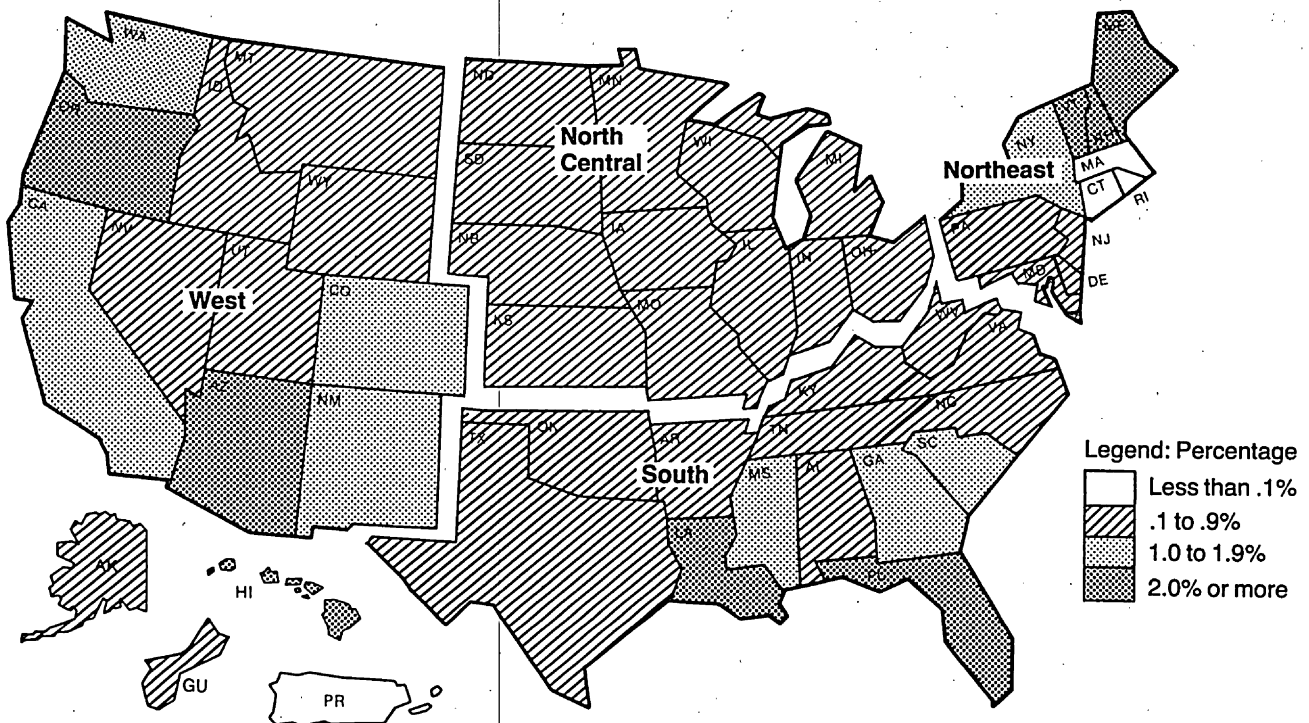

Figure 2

**Proportion of Foreign-Owned Agricultural Land to All Privately Owned Agricultural Land in the United States, December 31, 1986**

Maine has the largest amount of foreign-owned U.S. agricultural land, 1,879,237 acres, or 10 percent of the privately owned agricultural land in the State and approximately 15 percent of the reported foreign-owned agricultural land in the United States. Most of the foreign-owned agricultural land in Maine, 1,718,766 million acres, is timber land owned by three large companies. One company owns various percentage interests in 694,078 acres, another company owns 231,600 acres, and the third company and its subsidiaries, accounting for 793,088 acres, are U.S. companies which are foreign persons because they passed the AFIDA threshold which defines foreign ownership.

Oregon and Hawaii have the next largest proportions of reported foreign-owned agricultural land to all privately owned agricultural land in their States. Texas has the second largest amount of foreign-owned acreage, 1,018,812 acres, but only 0.6 percent of the privately owned agricultural land in Texas.

### Characteristics of Foreign Owners

Type of Foreign Owner. Individuals are the most common type of owner. They account for 44 percent of the owners, followed by corporations, 39 percent, and partnerships, 13 percent (table 2). The remaining 4 percent of the owners are estates, trusts, institutions, associations, and others such as real estate investment trusts, church groups, and foreign organizations not identifiable with the above categories.

Corporations own 49 percent of the parcels and 79 percent of the acreage; individuals, 34 percent of the parcels and 8 percent of the acreage; partnerships, 14 percent of the parcels and 11 percent of the acreage; and all others, 3 percent of the parcels and 2 percent of the acreage. When partial interests are taken into account, foreign-owned acreage drops from 12.4 million acres to 11.4 million, but distribution among the types of owners remains virtually the same.

Corporate-held parcels average 1,539 acres, or 3,252 acres per holder, while individual-held parcels average 220 acres, or 286 acres per holder. Partnership holdings average 750 acres per parcel, or 1,360 acres per holder, and all other holdings average 569 acres per parcel, or 691 acres per holder.

TABLE 2--U.S. AGRICULTURAL LANDHOLDINGS BY TYPE OF FOREIGN OWNER,  
DECEMBER 31, 1986  
(NUMBER)

OWNER	OWNERS	PARCELS	ACRES	PARCELS WITH PARTIAL INTERESTS <sup>1/</sup>	ACREAGE EQUIVALENT <sup>2/</sup>

<b>TOTAL</b>	<b>7,765</b>	<b>13,071</b>	<b>12,418,997</b>	<b>1,233</b>	<b>11,443,268</b>

<sup>1/</sup> PARCELS WITH PARTIAL INTERESTS ARE THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

<sup>2/</sup> ACREAGE EQUIVALENT EQUALS THE TOTAL ACREAGE REPORTED MULTIPLIED BY THE PERCENTAGE HELD BY THE FOREIGN OWNER.

Size of Holding. Holdings are concentrated with smaller acreages held by individuals and larger acreages held by corporations (tables 2 and 3). Owners of parcels with less than 300 acres (65 percent of all of the foreign owners) hold only slightly more than 3 percent of the land and owners of parcels with 300 acres or more (the remaining 35 percent) hold more than 96 percent of the land (table 4). Part of this concentration may be explained by the definition of agricultural land, which includes extensive uses of land such as ranching and

forestry and intensive uses of land such as orchards and vegetable farms. The different unit sizes due to differences in use may also explain part of the acreage differences in foreign-held land among the States.

In States where foreigners own few parcels, the possibility of one or two unusual situations prevents any generalization about concentration. For example, one large timber holding by a foreigner in a State with a large number of field-crop farms could easily be misinterpreted to suggest that a single foreigner was taking over the farming of the State.

Purchase Price and Value of Holdings. As noted earlier under "Type of Foreign Owner," corporations own 79 percent of the acreage. However, corporate purchase price and nonpurchase price (estimated value) at time of acquisition account for only 68 percent of the total price (table 5). The average per acre purchase price and nonpurchase price (estimated value) at time of acquisition was the lowest for corporations at \$673; followed by individuals, \$1,044; partnerships, \$1,281; and all others, \$1,317.

For recent acquisitions, purchase price generally will be close to, but not necessarily the same as, current value. As time passes, purchase price becomes a poor indicator of current value. For this reason, reported current value by date of acquisition was adjusted to February 1986 for all years prior to 1986 (table 6). The total adjusted current value indicates a 19-percent decrease from the reported current value. The adjustment factor was based on the national

average change in farmland value over time. The adjusted current values are not presented as absolute values for the foreign-owned land in this report but should be viewed as approximations of change in value.

The data in table 6 are not intended in any manner to indicate trends over time in the level of acquisitions by foreign persons. Acreage owned in the years listed is the total amount of land that was reported purchased during that year and which remained foreign owned as of December 31, 1986. Because land is continually being disposed by foreign owners or there are changes in status from foreign to nonforeign or from agricultural to nonagricultural, acreage amounts in each year are decreased by these land dispositions or status changes.

1/ PURCHASE PRICE AND NONPURCHASE PRICE (ESTIMATED VALUE) AT TIME OF ACQUISITION.  
 2/ REPORTED CURRENT VALUE REFLECTS VALUE AT TIME OF REPORTING AFTER FEBRUARY 1, 1979.  
 3/ REPORTED CURRENT VALUE ADJUSTED TO FEBRUARY 1, 1986. REPORTED CURRENT VALUE FOR HOLDINGS ACQUIRED IN 1986 IS UNADJUSTED.

Table 7 adjusts reported current value by State for the same reasons given in the discussion of table 6. Because the reported current value in table 7 is adjusted by each State's average annual change in farmland value, the total adjusted current value will differ from that of table 6. Simply explained, not all land values in table 6 would have changed at the national average. Therefore,

1/ REPORTED VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE) AT TIME OF ACQUISITION.

2/ REPORTED CURRENT VALUE REFLECTS VALUE AT TIME OF REPORTING AFTER FEBRUARY 1, 1979.

3/ REPORTED CURRENT VALUE ADJUSTED TO FEBRUARY 1, 1986. REPORTED CURRENT VALUE FOR HOLDINGS ACQUIRED IN 1986 IS UNADJUSTED.

the total adjusted current value in table 7 should be a better measure of value than that of table 6. The total adjusted current value by State indicates a 1-percent increase in reported current value.

Country of Origin. Of the 12,418,997 acres of foreign-held agricultural land reported by foreign persons, 57 percent is held by U.S. corporations with foreign interests. The remaining 43 percent is held by foreign persons not connected with a U.S. corporation (table 8).

U.S. corporations with United Kingdom (U.K.) interests own the largest amount of reported foreign-held acres of U.S. agricultural land, 3,531,221 acres, or 28 percent. Adding to this, 381,491 acres owned by foreign persons from the United Kingdom not connected with a U.S. corporation raises U.K. ownership to 32 percent of all of the reported foreign-held acres. Foreign persons from Canada and West Germany own 2,282,710 and 1,219,520 acres, respectively, an additional 28 percent. Foreign persons from the Netherlands Antilles and Switzerland own 755,653 acres (6 percent) and 514,428 acres (4 percent), respectively. These five countries of origin own a total of 8,685,023 acres, or 70 percent of all reported foreign-owned holdings of U.S. agricultural land. Approximately 4 percent of the acreage, 493,167 acres, is owned by unidentifiable Third Tier persons; that is, the acreage is not attributable to any foreign country of origin because no foreign country of origin is listed through the third tier of ownership.

Foreign persons from Canada, West Germany, the Netherlands, and the United Kingdom own the greatest number of parcels. Foreign persons from Canada and West Germany account for the largest number of owners reporting.

Foreign persons from the United Kingdom, West Germany, Canada, the Netherlands Antilles, and Switzerland own 2,687,110 acres or 59 percent of the foreign-held acres in the South (table 9). Ten percent of the acreage, 432,280 acres, is owned by unidentifiable Third Tier foreign persons. An additional 19 percent, 874,297 acres, is owned by foreign persons from Mexico, France, Liechtenstein, the Netherlands, Panama, and Bermuda.

In the West, foreign persons from the United Kingdom own more acres than any other single group--37 percent. Much of the U.K. figure is attributable to one U.S./U.K. corporation which owns 32 parcels covering 809,289 acres, and to another U.S./U.K. corporation and its subsidiaries which own 23 parcels covering 415,868 acres. Foreign persons from West Germany, Canada, the Netherlands, and the Netherlands Antilles reported owning 1,483,353 acres or 36 percent. An additional 556,411 acres, or 14 percent, were reported by foreign persons from Japan, Mexico, Panama, Luxembourg, and Switzerland.

In the Northeast, foreign persons from Canada and the United Kingdom own 2,376,979 acres, or 86 percent of the foreign-held acreage in the region. Seventy percent of this figure, 1,667,736 acres, is attributable to two companies with extensive forest holdings--one Canadian corporation with partial interests in 9 parcels covering 694,078 acres and a U.S./U.K. corporation and its subsidiaries with 25 parcels covering 973,078 acres.

In the North Central region, foreign persons from Canada, the United Kingdom, and West Germany reported owning 572,918 acres, or 56 percent of the foreign-held acres in the region. Fourteen percent of the acreage is owned by U.S./Multiple entities, U.S. corporations which have foreign owners from a number of countries, none of whom has a predominant interest in the corporation.

1/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

## Interest in Land

Of the 13,071 parcels of foreign-held U.S. agricultural land, 82 percent of the parcels, accounting for 84 percent of the reported acreage, is held in fee interest whole (that is, the owner holds the estate in its entirety). Partial interests are held in another 9 percent of the parcels covering another 13 percent of the acres (table 10).

Under the AFIDA regulations, leases of 10 years or longer are the only leases that need be reported. 4/ Leases are treated separately because they represent a totally different type of interest. Questions on value, tenure, and method of acquiring land do not apply because the report form was not devised to deal with leases. The U.S. Department of Agriculture (USDA) has received 375 reports covering a net total of 994,524 acres of leased land. Timber land accounts for 663,521 acres, or 67 percent of the reported foreign leaseholds.

## Method of Acquisition

More foreign investors reported paying cash for their U.S. agricultural landholdings than using any other method of acquisition. Of the total foreign-owned

<sup>1/</sup> THE FEE INTEREST PARTIAL IS USED FOR THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

4/ 7 C.F.R. § 781.2(c) (1986)

parcels, 44 percent, covering 33 percent of the acreage, were acquired for "Cash Only" (table 10). This compares with 35 percent of the parcels, containing 20 percent of the acreage, which were acquired by "Credit Only," and 5 percent of the parcels, containing 24 percent of the acreage, which were acquired by "Other Method Only." The "Other Method Only" category includes mergers, corporations that became foreign because foreign persons obtained a significant interest or substantial control in the corporations, or an individual exchanging land for stock in a new corporation. The "Cash and Credit Only" category covers an additional 9 percent of the parcels and 10 percent of the acres.

#### Relationship of Foreign Owner to Representative

Forms were most commonly completed by the attorneys, accounting for 28 percent of the parcels and 25 percent of the total acreage (table 10). The second largest group is the "Other" category, which includes accountants, family members, and people associated with or employed by corporations. People in the "Other" category filed forms for 23 percent of the parcels, representing 22 percent of the foreign-held agricultural land.

#### Land Use

Fifty-two percent of the reported foreign-owned holdings of agricultural land is timber or forest land (table 11); cropland accounts for only 17 percent. Foreign-owned cropland, pasture, and other agricultural land (which includes, for example, orchards and vineyards) total 43 percent of all foreign-owned holdings, but only 0.4 percent of all privately held agricultural land in the United States. The "Other Nonagriculture" and "No Report" categories account for 5 percent of the reported foreign-held acres. Nonagricultural land includes acreages such as the homestead and roads commonly reported as part of the agricultural landholding or land that is idle now but its last use within the past 5 years was for agriculture. These land-use figures should be used with caution because they reflect only information received at the time of filing and do not account for any changes in land-use which may have occurred subsequent to filing.

Foreign persons from the United Kingdom own 3,394,099 acres, or 52 percent, of the reported forest landholdings. Foreign persons from Canada hold an additional 24 percent of the forest land. Unidentifiable Third Tier foreign persons own 5 percent of the forest land. The size of the U.K. holdings are attributable to two companies--a U.S./U.K. corporation with 71 parcels covering 1,594,728 acres and a U.S./U.K. corporation and its subsidiaries with 56 parcels covering 1,455,212 acres.

Foreign persons from West Germany, the Netherlands Antilles, and Canada own the most cropland, 960,396 acres, or 45 percent. Foreign persons with the next largest holdings of cropland are from Switzerland and Liechtenstein, with 8 percent and 7 percent, respectively. Unidentifiable Third Tier foreign persons own an additional 7 percent of the cropland.

Foreign persons from West Germany, the United Kingdom, the Netherlands Antilles, and Canada own 48 percent, or 1,280,768 acres of the pastureland. Foreign persons from Mexico, the Netherlands, Switzerland, Panama, and Japan own an additional 30 percent, or 800,070 acres.

The largest group of owners of other agricultural land are foreign persons from the Netherlands Antilles and Canada with 14 and 12 percent of the acres, respectively. They are followed by foreign persons from Switzerland, U.S./Luxembourg

1/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.  
2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

corporations, and foreign persons from West Germany who own 146,992 acres, or 27 percent. Foreign persons from the Netherlands, Mexico, France, and the United Kingdom own an additional 130,169 acres, or 24 percent.

Based on reports by foreign owners who reported owning only forest land or forest land and other nonagricultural land, these reports account for 49 percent of all the foreign-owned U.S. agricultural land (tables 1 and 12). The remaining 51 percent is primarily farmland, although it includes some forest and/or other non-agricultural land commonly reported as part of the farm landholding (table 11).

The average parcel size for parcels with forest land or forest land and other nonagricultural land is 2,859 acres (table 12). Except for Maine (with 31 percent of the acreage, the uniqueness of which has been noted previously), the forest or forest and other nonagriculture acres are concentrated in the South and West. Alabama, Georgia, Louisiana, Mississippi, and South Carolina account for 25 percent. California, Oregon, and Washington account for another 22 percent of the acres reported. There are also notable holdings in Michigan, Minnesota, New Hampshire, New York, and Pennsylvania, accounting for another 16 percent of the acres.

U.S./U.K. corporations own 53 percent of the foreign-owned U.S. forest land or forest and other nonagricultural lands (table 13). Foreign persons from Canada own an additional 25 percent.

Individuals make up the largest number of owners reporting holdings of forest land or forest and other nonagricultural land but account for only 17 percent of the parcels and less than 2 percent of the acres (table 14). Corporations reported holding 54 percent of the parcels, representing 91 percent of the acreage. The remaining 29 percent of the parcels and 8 percent of the acres are held by partnerships, trusts, estates, and others. When partial interests are taken into account, the acreage equivalent is 479,045 acres less than the acres for which reports were filed.

Tenure

Tenants and foreign owners operate 39 percent and 28 percent of the parcels of foreign-held U.S. agricultural land, respectively, whereas managers only operate 10 percent of the parcels (table 17). No responses to the tenure question were received for the remaining 23 percent of the parcels. However, tenants operate 26 percent of the acres while foreign owners directly operate 44 percent and managers 7 percent. No responses on tenure were received for the remaining 23 percent of the acres.

Rental agreements were reported for 5,507 parcels, or 42 percent, covering 28 percent of the acres. Of the rental agreements, cash agreements accounted for 65 percent and cropshare agreements for 33 percent of the parcels.

## Tenure Change

No tenure changes were reported for 43 percent of the parcels, or 45 percent of the acres (table 17). Reports for 32 percent of the parcels containing 27 percent of the acres indicate a new tenure arrangement on at least part of the land. The number of acres affected by the new tenure arrangements are not reported. Thus, the acreage may be overstated; that is, all of the acres in these parcels are not necessarily affected by new tenure arrangements. Nevertheless, reports for 0.3 percent of the parcels, accounting for 0.5 percent of the acres, indicated that some of the tenure arrangements would remain the same and some would change. No responses on tenure changes were received for 25 percent of the parcels containing 27 percent of the acres.

In the South, no changes in tenure were reported for virtually the same number of parcels and acres as were reported for parcels and acres with changes--40 percent of the parcels covering 35 percent of the acres were reported as having no changes and 41 percent of the parcels covering 36 percent of the acres were reported for new tenure arrangements. In the West, North Central, and Northeast, however, there were more reports for parcels and acres with no changes in tenure than there were reports for new tenure arrangements. The Northeast had the highest percentage of no responses, 40 percent of the parcels covering 29 percent of the acres.

## Acquisitions

The data in this section are net figures for U.S. agricultural land acquired by foreign persons from January 1 through December 31, 1986; that is, the total reported acquisitions for the period less dispositions data for lands that were both acquired and disposed during calendar year 1986.

Foreign persons reported that they acquired 294 parcels of U.S. agricultural land covering 1,675,270 (tables 18 and 19). However, the following acquisitions discussion will deal only with 5 percent or 80,554 of these acres and 225 parcels. The other 95 percent, 1,594,716 acres of forest land in 69 parcels, were previously reported as foreign owned--494,495 acres in Louisiana, 290,944 in Mississippi, 528,552 acres in Oregon, and 280,725 acres in Washington. These acres were transferred in 1986 to a U.S./U.K. corporation by another U.S./U.K. corporation which had previously reported them and was controlled by the same United Kingdom interest as the new owner. Thus, ultimate control of the land did not actually change.

The reported acquisitions data should be regarded as preliminary in that they understate to some degree the total acreage acquired by foreign persons during the reporting period. Because foreign persons have a statutory 90 days within which to report their acquisitions, not all of the acquisitions acquired in the 90 days preceding the December 31, 1986, closing date of this report were received for processing by USDA. Therefore, a number of reports for October, November, and December are not included in this report. Table 40 shows that the distribution of acquisition dates is skewed toward the first three-quarters of the year. A further understatement of the acreage acquired by foreign persons during the reporting period may result from transaction reports that are not timely filed and/or completed by the closing date of this report. Consequently, such reports would not have been processed for inclusion in this report.

## Concentration of Foreign Acquisitions of U.S. Agricultural Land

Deleting the acreages for Louisiana, Mississippi, Oregon, and Washington, the largest number of acres were acquired in Colorado, Florida, Georgia, and South Carolina, accounting for 53 percent of the remaining 80,554 acres (table 18). Sixty-four percent of these acres, 51,169 acres, are concentrated in the South (table 24).

### Characteristics of Foreign Owners

Type of Foreign Owner. Of the 225 parcels and 80,554 acres, corporations reported acquiring 60 percent of the parcels and 63 percent of the acres (table 19). Individuals account for 16 percent of the acres; partnerships, 10 percent; and trusts, 10 percent. When partial interests of foreign investors are taken into account, the 80,554 acres drop to an acreage equivalent of 74,343, but the distribution among the types of owners remains virtually the same except for trusts.

TABLE 18--U.S. AGRICULTURAL LAND ACQUISITIONS OF FOREIGN OWNERS BY STATE,

PARTNERSHIP	16	18	8,366	3	8,005
TRUST	16	16	8,255	4	2,995
TOTAL	154	294	1,675,270	13	1,669,059

1/ PARCELS WITH PARTIAL INTERESTS ARE THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

2/ ACREAGE EQUIVALENT EQUALS THE TOTAL ACREAGE REPORTED MULTIPLIED BY THE PERCENTAGE HELD BY THE FOREIGN OWNER.

Removing the one corporate owner with 69 parcels covering 1,594,716 acres, corporations acquired an average of 381 acres per parcel, or 709 acres per owner, compared with individuals who acquired an average 226 acres per parcel, or 263 acres per holder. Partnerships reported acquisitions averaging 465 acres per parcel, or 523 acres per owner, and trusts 516 acres per owner and parcel.

The largest acreage acquired by individuals during the period was reported for New Mexico (table 20). Except for Louisiana, Mississippi, Oregon, and Washington, organizations reported acquiring the largest acreage in South Carolina and Georgia.

Size of Acquisition. The largest number of owners reported their acquisitions in the range of 100 to 999 acres (table 21). Removing the 1,594,716 acres and 69 parcels, owners of parcels with 1,000 acres or more (15 percent of the owners) acquired approximately 69 percent of the acres and owners of parcels with less than 1,000 acres (85 percent of the owners) acquired the remaining 31 percent of the acres. All parcels of 1,000 or more acres accounted for 70 percent of the total value. The value per acre, however, is concentrated in the reports of holders of less than 20 acres--\$22,053 per acre, compared with \$158 per acre for holdings of 1,000 or more acres.

TOTAL	57	12,883	237	1,662,387

**Purchase Price and Value of Acquisitions.** Corporations account for 83 percent of the purchase price and nonpurchase price (estimated value) at time of acquisition (table 22). The average per acre purchase price and nonpurchase price (estimated value) is lowest for corporations at \$188; followed by trusts, \$611; individuals, \$1,158; and partnerships, \$5,335.

Equity is frequently used to measure net foreign investment transfer. To approximate equity, debt was subtracted from current value for all reports that provided information on debt and current value. The 294 reports providing information on debt, \$33,291,000, and current value, \$473,303,000, resulted in an equity figure of \$440,012,000 (table 22). These figures reveal an equity figure of 93 percent in relation to current value.

1/ VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE).

2/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

3/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

Most of the acres acquired during this period were in the South and West (table 24). Removing the acreage for the U.S./U.K. corporation with 785,439 acres in the South and 809,279 acres in the West reveals that the South had most of the remaining acquisitions--51,169 acres, or 64 percent of the balance of 80,554 acres. Of this 51,169 acres, 42 percent was acquired by foreign persons from the United Kingdom and 25 percent by foreign persons from West Germany. In the West, of the balance of 18,797 acres, foreign persons from Austria not affiliated with a U.S. entity acquired 24 percent of the acres and foreign persons from Canada acquired 17 percent.

1/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.  
 2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

Interest in Land

Removing the 1,594,716 acres and 69 parcels, 86 percent of the parcels, accounting for 86 percent of the reported acres, were acquired in fee interest whole (table 25). Partial interests were acquired in 6 percent of the parcels, representing 11 percent of the acres.

Method of Acquisition

Removing the 69 parcels covering 1,594,716 acres, 63 percent of the parcels, covering 59 percent of the acres, were acquired for "Cash Only" (table 25). This compares with 7 percent of the parcels, covering 23 percent of the remaining acres, which were acquired by "Other Method Only."

Land Use

Removing the 69 parcels covering 1,594,716 acres of forest land, most of the acquired acres were still in forest land, 37 percent (table 26). Cropland, pasture, and other agricultural land totaled 42,701 acres, or 53 percent of the remaining acquisitions.

Separating out data on reports for only forest land or forest land and other nonagricultural land shows that 24 percent of the remaining 80,554 acres of acquisitions are in these two land-use categories (table 27). The bulk of the

acquisitions, 76 percent, is primarily farmland, although it includes some forest and/or other nonagricultural land commonly reported as part of the farm land acquisition (table 26).

Foreign persons from West Germany not affiliated with a U.S. entity and foreign persons from the United Kingdom purchased most of the U.S. forest land or forest and other nonagricultural lands (table 28). They account for 71 percent of such acquisitions, 13,492 acres.

Corporations account for the largest number of owners reporting acquisitions of forest land or forest and other nonagricultural land--52 percent of the owners reported acquiring 63 percent of the parcels covering 37 percent of the acres (table 29). Fifteen percent of the owners were trusts who reported acquiring 11 percent of the parcels covering another 37 percent of the acres.

Intended Use

Removing the 1,594,716 acres, reports for the remaining acquisitions indicated no change in land use for 94 percent of the acres (table 31). Intended changes to other agricultural use and nonagricultural use were reported for holders of the remaining 6 percent of the acquired acres. Because the form asks for changes by parcels and not acres, all of these acres may not be affected by the indicated changes.

Tenure

Removing the 69 parcels covering 1,594,716 acres, foreign owners directly operate 26 percent of the parcels acquired during the period and 26 percent of the acres, whereas tenants operate 25 percent of the parcels and 40 percent of the acres (table 32). Managers, however, operate only 13 percent of the parcels and 16 percent of the acres. No responses on tenure were received for 35 percent of the parcels covering 18 percent of the acres.

Rental agreements were reported for 22 percent of the parcels covering 33 percent of the acres acquired during this period. Of the rental agreements, cash agreements accounted for 98 percent of the parcels covering 95 percent of the acres. No responses on rental agreements were received for 52 percent of the parcels covering 42 percent of the acres.

Tenure Change

Removing the 69 parcels covering 1,594,716 acres, reports for 44 percent of the parcels acquired during the period indicate no tenure change for 64 percent of the acreage (table 32). Reports for 27 percent of the acquired parcels, containing 23 percent of the acres, indicated a tenure change. Because the number of acres affected by new tenure arrangements was not reported, the acreage may be overstated; that is, all of these acres are not necessarily affected by new tenure arrangements. No responses on tenure change were made for 29 percent of the parcels accounting for 14 percent of the acres.

Dispositions, Land-Use Changes, and Changes in Status

Data in this section are derived from reports filed by foreign investors who disposed of 211 parcels of U.S. agricultural land covering 1,670,073 acres between January 1 and December 31, 1986. However, the following dispositions discussion deals only with 142 parcels covering 38,732 of these acres, 2 percent of the

<sup>1/</sup> VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE).

acreage. For the other 98 percent, 69 parcels covering 1,631,341 acres of forest land, these are the same parcels omitted from the acquisitions discussion because the ultimate control of the land has not changed since the original filing. The discrepancy of 36,625 acres for these 69 parcels between the disposition figure (1,631,341) and the acquisition figure (1,594,716), is due to an overstatement in the original filing.

In addition to the dispositions, there were reports of land-use changes into agriculture for 2 parcels covering 244 acres and out of agriculture for 1 parcel covering 114 acres; and reports of changes in status from foreign to nonforeign for 49 parcels covering 59,411 acres. Records for 211 parcels covering 1,150 acres were also purged from the files because of changes in the regulations which took effect October 9, 1984. 5/

For the same reasons noted at the outset of the acquisitions discussion, the reported data for dispositions, land-use changes, and changes in status should be regarded as preliminary. Reports that were not timely filed and/or completed or statutorily were not required to be filed by the closing date for this report are not included.

#### Characteristics of Foreign Owners Disposing Land

Type of Foreign Owner. Deleting the 69 parcels covering 1,631,341--15 parcels and 494,530 acres in Louisiana, 24 parcels and 290,944 acres in Mississippi, 18 parcels and 527,982 acres in Oregon, and 12 parcels and 317,885 acres in Washington--the largest amount of acres disposed were in Florida, Nevada, and South Carolina, accounting for 44 percent of the dispositions acreage (table 33). The greatest number of dispositions occurred in Florida, Georgia, Pennsylvania, and Vermont, accounting for 56 percent of the parcels but only 29 percent of the acreage.

Transfers by foreign investors to U.S. purchasers accounted for 70 percent of the parcels and 59 percent of the acres (table 34). Reports for 15 percent of the parcels and 16 percent of the acres indicated that they were transferred to other known foreign persons. Reports for 13 percent of the parcels covering 24 percent of the acres indicated dispositions to persons of unknown citizenship.

Corporations were the most active type of foreign owner disposing of land--accounting for 52 percent of the owners, 63 percent of the parcels, and 71 percent of the acres (table 35). In comparison, individuals accounted for 27 percent of the owners, 24 percent of the parcels, and 15 percent of the acres.

Size of Disposition. Removing the 1,631,341 acres, the most acreage disposed was for parcels with 1,000 or more acres, accounting for 73 percent of the acres (table 36). As should be expected, sales prices per acre were higher for smaller parcels. Average selling price of acreage in the less-than-20-acres range was \$28,869 per acre compared with \$150 per acre for all parcels in the 1,000-or-more-acres range. Average selling price of all reported dispositions was \$182 per acre.

Country of Origin. Removing the 69 parcels covering 1,631,341 acres, foreign persons from West Germany, U.S./Cayman Islands corporations, foreign persons from Switzerland not affiliated with a U.S. corporation, and foreign persons from Canada

5/ 29 Fed. Reg. 35,072 (1984); 7 C.F.R. §§ 781.1-.6 (1986). See last year's report, ERS Staff Report No. AGES860327 (April 1986) at 43-44, for a discussion of the impacts of these changes.

persons from Bermuda not associated with a U.S. corporation disposed of 80 percent of the acres in the region. The West accounted for 12 percent of the disposed parcels covering 26 percent of the acres. Foreign persons from Canada and Switzerland not associated with a U.S. corporation and U.S./U.K. corporations disposed of 91 percent of acres in the region.

### Land Use

Removing the 1,631,341 acres, 33 percent of the dispositions were cropland, 22 percent pasture, 24 percent forest, 6 percent other agriculture, and 15 percent other nonagriculture (table 39). Foreign persons from West Germany and foreign persons from Bermuda, Canada, and Switzerland not affiliated with a U.S. corporation disposed of 95 percent of the cropland. U.S./Cayman Islands, U.S./United Arab Emirates, and U.S./U.K. corporations and foreign persons from Canada not affiliated with a U.S. corporation disposed of 83 percent of the pasture land. U.S./Cayman Islands and U.S./U.K. corporations and foreign persons from West Germany not affiliated with a U.S. corporation disposed of 56 percent of the forest land. Foreign persons from Switzerland not affiliated with a U.S. corporation disposed of 74 percent of the other agricultural land. U.S./Cayman Islands and U.S./West Germany corporations disposed of 81 percent of the other nonagricultural lands.

Trends

The data for 1986 are skewed toward the first part of the year, whereas the data for 1981 through 1985 are generally more evenly distributed throughout the year (table 40). This has also been the case for current year data in past AFIDA reports. This can be explained primarily in terms of the AFIDA reporting requirements which allows persons 90 days to report their transactions to USDA. Consequently, not all of the transactions occurring in the 90 days preceding the closing date of the report are reported to USDA by that date. Some of the skewing is also due to reports that are not timely filed and/or completed by the closing date. The foregoing discussion also means that the current data, and in some instances data for prior years, are understated and should be regarded as preliminary. In addition, unlike the net data in the acquisitions section, the acquisitions figures here are gross figures; that is, total acquisitions without reductions for dispositions.

PROGRAM COSTS

Administration of the AFIDA program for obtaining and analyzing the data has required an estimated 9.4 staff-years at a cost of approximately \$318,000 to USDA for the past year. The Agricultural Stabilization and Conservation Service contributed approximately 7.9 staff-years at an estimated cost of \$278,000. The remaining costs and staff-years are attributable primarily to the Economic Research Service, with some contributions by the Office of the General Counsel and the Office of Governmental and Public Affairs.

FOREIGN PERSON COPY

**NOTE:** P.L. 95-460 authorizes collection of the data on this form. The data will be used to determine the effects of foreign persons acquiring, transferring and holding agricultural land, and the effects of such activity on family farms and rural communities. Furnishing the data is mandatory. Failure to comply or falsification of reporting is subject to civil penalty, not to exceed 25 percent of the fair market value of the interest held in the tract on the date of the assessment of such penalty. The data may be furnished to any Agency responsible for enforcing the provision of the Act and to the public.

**DETERMINATION OF "FOREIGN PERSON" STATUS**

**DEFINITION:** "Person" means any individual, corporation, company, association, firm, partnership, society, joint stock company, trust, estate, or any other legal entity.

You are a "foreign person" under the provisions of P.L. 95-460 and must complete the front side of this form (ASCS-153) if your answer is "NO" to all the statements numbered 1, 2, and 3 below.

	YES	NO
1. I AM a citizen of the United States.		
2. I AM a citizen of the Northern Mariana Islands or the Trust Territories of the Pacific Islands.		
3. I AM lawfully admitted to the United States for permanent residence, or paroled into the United States, under the Immigration and Nationality Act.		

You are a "foreign person" under the provisions of P.L. 95-460 and must complete the front side of this form (ASCS-153) if your answer is "YES" to any of the statements numbered 4a, 4b, and 5 below.

	YES	NO
4. I AM a "person" other than an individual or government, which is created or organized under the laws of: <ul style="list-style-type: none"> <li>a. A foreign government of which has its principal place of business located outside the United States.</li> <li>b. Any State of the United States, and in which significant interest or substantial control <u>1/</u> is held directly or indirectly by any foreign individual, government, or person.</li> </ul>		
5. I AM a foreign government.		

**GENERAL INSTRUCTIONS**

Complete this form in an original and three copies for each tract of land. Insertion of carbons is necessary. Report as a tract all acreages under the same ownership in each county or parish acquired or transferred on the same date. Land in different counties or parishes and land acquired or transferred on different dates must be reported as separate tracts.

Return the original and two copies to the County Agricultural Stabilization and Conservation Service (ASCS) Office where the tract of land is located. Retain the last copy (*Foreign Person Copy*) for your records. **DO NOT SEND THIS FORM DIRECTLY TO WASHINGTON, D.C.**

After the original disclosure on ASCS-153 on the tract(s) of land owned by the same person within a county or parish, each subsequent change of ownership or use must be reported by filing another ASCS-153.

**ITEM INSTRUCTIONS AND REPORTING DATES**

**ITEM 1. ONLY ONE BOX MAY BE CHECKED**

If the tract of land to be listed under Item 2 on the front side of this document was:

—Owned on February 1, 1979, check **A. Land Holding**  } Reporting Date: This document is required to be completed and returned by August 1, 1979.

If the tract of land to be listed under Item 2 on the front side of this document was, on or after February 2, 1979: .

—Acquired, check **B. Land Acquisition**   
 —Disposed of, check **C. Land Disposition**   
 —Changed from non-agricultural to agricultural use, check **D. Land Use Change To Agriculture**   
 —Changed from agricultural to non-agricultural use, check **E. Land Use Change To Non-Agriculture**  } Reporting Date: If any of these activities are checked in Item 1, return the completed ASCS-153 within ninety (90) days from the date of the transaction.

**ITEM 8. The date entered would be as follows for the activity checked in Item 1:**

- Box A or B - Date acquired.
- Box C - Date disposed of.
- Box D or E - Date land use changed.

**ADDITIONAL INFORMATION** (Use additional sheets if more space is needed)

*1/ Significant interest or substantial control as defined in 7 CFR 781.2 (k).*
